

**NEWS BRIEF**

**Art museum receives \$50,000 grant**

The Institute of Museum and Library Services has given the University Jordan Schnitzer Museum of Art a \$50,000 grant to pay for new

storage racks to display works by American, European and Asian artists.

The art museum will install the state-of-the-art racks in its newly expanded and renovated facility when the \$14.2 million construction project is complete.

"This grant will help protect this important segment of the

collection as it is installed in a new climate-controlled space in the expanded museum," Museum of Art Registrar Jean Nattinger said. "The improved storage conditions exceed the rigorous standards other museums require when lending works of art."

too much of a potential burden to handle.

In any case, the head coach, who has one of the toughest last names to

pronounce and spell, decided that staying in college and declining \$8 million a year was the right choice.

And who could blame him?

The Duke men's basketball program will always attract the top high school recruits as long as

Krzyzewski is there, while the Lakers could potentially lose two of the top basketball players in the league today — Kobe Bryant and Shaquille O'Neal.

The right decision was made.

**TRIALS**

continued from page 5

It will mark the second time Malone has competed at the Olympic Trials after qualifying in her senior year at Newberg High School in 2000. She finished eighth in her qualifying bracket at 156-11, but Malone said the experience was "overwhelming" back then.

"It's been nice to have that background and know what to expect," said Malone, who finished third with a mark of 178-1 at this year's NCAA Championships.

However, Malone said there is a "very slight chance" of her earning a spot on the U.S. Olympic squad. Her invite to the Trials is based on her personal best of 179-7 from the Texas Relays meet in early April. The mark is the sixth best outdoor mark in the country this year. In order to make the U.S. team, Malone has to meet the

Olympic 'A' qualifying standard, which sits at 203-10.

"It's probably not attainable right now," Malone said.

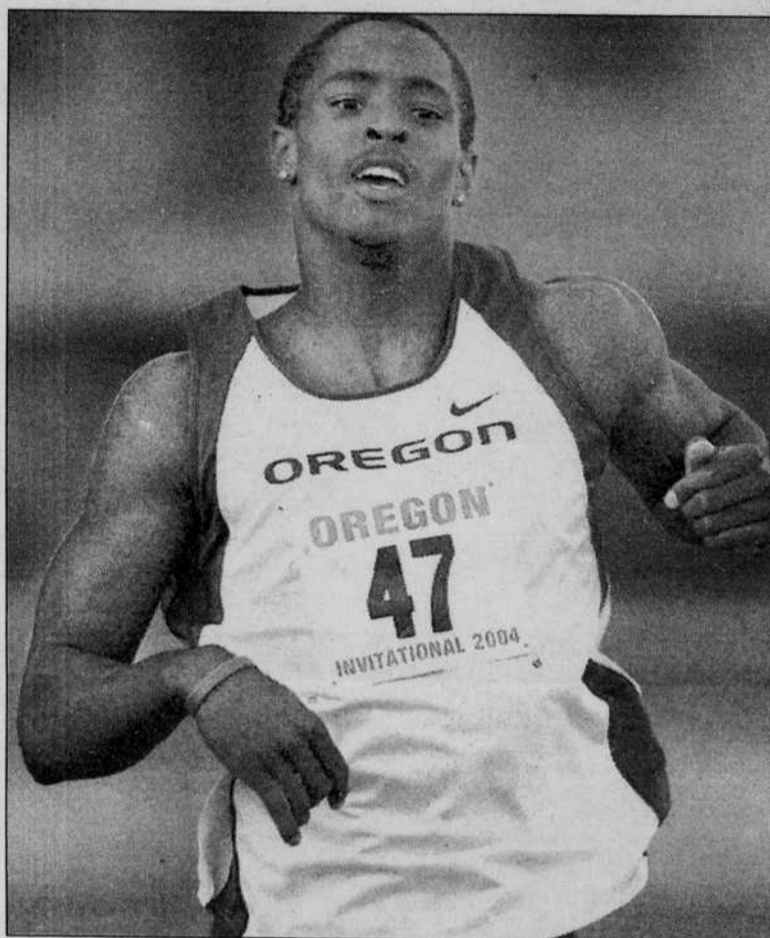

Malone said she will use this week as a "learning experience" against the top hurlers in the nation, including this year's NCAA javelin champion Katy Doyle (185-7).

Mitchum, who will compete in the 110-meter hurdles, finished second at the NCAA Championships with a school record of 13.38 seconds. He competes at 12:35 p.m. on July 17.

His school record, which is also a personal record, meets the Olympic 'A' qualifying standard of 13.54. Mitchum's time also ties him with Michah Harris for the 14th best in the nation this year.

At the Prefontaine Classic, Mitchum finished sixth at 13.66 and was the only collegiate athlete competing in the event.
