

It's About Being **Recognized** For My **Accomplishments.** And **Rewarded** For My **Achievements.**

And it's all mine.

I've found that having the talent to succeed often times isn't enough. You also need plenty of support and a great workplace too. That's why I'm so glad I chose Enterprise. Here, it's all about growing a business, advancing my career, and having a lot of fun doing it.

At Enterprise, there's an entrepreneurial philosophy that guides everything we do. This means that I get to approach the business like it's my own and I get to share in the profits I help create. And, what's more, my hard work and ability never go unnoticed here. Just the opposite - they lead to more promotions, more autonomy, and bigger rewards. I also like that an industry leader backs me every step of the way. By putting customers and employees first, Enterprise has created a unique business and work environment that's perfect for me.

A world of opportunity

Coming into focus!!

Our team is dynamic, and we work in an environment that is friendly yet professional. As a company ranked in the Fortune 200, HSBC Card Services has the strength and resources to back you in a rewarding career. Plus, we are one of Oregon's 100 Best Places to Work. We're seeking:

Customer Information Analysts

Do you enjoy working with data? Our data analysts use their programming and applied mathematics skills to extract data sets and solve data issues for their customers in Marketing, Risk and Operations. Ideal candidates will have a Bachelor's and/or Master's in Math, Applied Math and/or Statistics and excellent programming skills. We use SAS and SQL, so experience with these tools is a plus. Candidates must be detail-oriented and have demonstrated above-average written and verbal communication skills.

Credit Risk Analysts

Our risk analysts use their statistical knowledge and computer skills to analyze customer information and make recommendations that inform our marketing strategies. Ideal candidates will have a Bachelor's and/or Master's in Math, Statistics, Finance or Economics and a strong foundation in statistical data analysis. Candidates must also possess strong written and verbal communication skills. Experience working with SAS is desired.
