Horoscope by Holiday Mathis

TODAY'S BIRTHDAY (February 15). You are wealthy in love this year. The investment of quality time and affection that you put into friends and family yields the true gold, so don't bury yourself in work. Romance thrives when there are challenging shared goals at stake. Singles are infatuated and then get the prize in June. Some marry in July. Love signs are Scorpio and Aries. Your lucky numbers are: 20, 1, 12, 32 and 14.
ARIES (March 21-April 19). One-armed robots discovered last year that your ruling planet was likely wet enough to harbor life. And you'll discover today that your temper isn't as hot and uncontrollable as you thought -- loved ones can actually live with it!
TAURUS (April 20-May 20). When you look around you, you can't help but notice there are two types of people -- those who have problems and those who somehow, miraculously, don't. Hang around the second group for good luck.
GEMINI (May 21-June 21). Computers require periodic system upgrades, and your personal operating system needs an update once in a while, too. Review now. A new "program" will only work if you're willing to change something basic.
CANCER (June 22-July 22). Your connection with the moon makes you more sensitive than most -- a fact that's so apparent now you'll wonder if you're even the same species as your fellow humans. You'll teach others compassion.
LEO (July 23-Aug. 22). A plan can be complex without being complicated. If you can't easily explain your intentions, perhaps they are still not clear to even you. Break your plan down to concise action steps. Share discoveries with a Taurus.
VIRGO (Aug. 23-Sept. 22). Being a part of a supportive community is key to having a terrific life. You already contribute in some way, but how can you build more value into those contributions on a daily basis?
LIBRA (Sept. 23-Oct. 23). You're probably tolerating more than you need to from a loved one. Dare to crack down on the rules of conduct. Make it clear that there are behaviors you simply won't put up with anymore.
SCORPIO (Oct. 24-Nov. 21). Your old manner of dealing with stress isn't working so hot now. Time to change it up. It's a rare day when escapism and avoidance tactics may actually be the healthiest thing you can do.
SAGITTARIUS (Nov. 22-Dec. 21). Something that occurs on the job begins an internal conversation between you and your critic. Boy, that critic can be mean! You wouldn't accept such language from others -- and shouldn't accept it from yourself.
CAPRICORN (Dec. 22-Jan. 19). Your results are directly linked to your energy source. Being on a strict deadline may give you the adrenaline rush to get to the finish line, but how is the end product? Joyful creativity yields a better outcome.
AQUARIUS (Jan. 20-Feb. 18). What you think is a light schedule is quite overwhelming to someone else. Your teammates need special care and specific instructions now if they are to keep up with you. Be patient, or go it alone.
PISCES (Feb. 19-March 20). Just as fellow Pisces Albert Einstein's theory of relativity may have a glitch (as revealed by the super-strong gravity of a neutron star), your own theories could change due to the super-strong pull of an influential friend.
