Rubes

"Oy, vey! What kind of lazy bum do we have for a son?! How is it possible that someone with so much time to kill never actually kills anything?!"

Horoscope by Holiday Mathis

TODAY'S BIRTHDAY (November 14). This year, dreams come alive when you find a happy balance between effort and ease. Since you are tired of chasing, this breakthrough, which allows you to attract what you need, is most welcome! You'll get from here to there in style in December. New living arrangements are made in February. Love is strong with Taurus and Cancer. Your lucky numbers are: 8, 15, 32, 19 and 3.

ARIES (March 21-April 19). While you're focused on executing your fire walk, others are standing around in fear of getting burned feet. Show them how it's done. Go quickly and with a whopping dose of faith.

TAURUS (April 20-May 20). A fuzzy, far-off feeling could have you drifting through the morning, so arrange to take care of your lightest tasks in the a.m. This evening helps you re-align your uniqueness. Your story helps others ... that is, if you tell it.

GEMINI (May 21-June 21). You're elevated by the view. Or, is it a good view because you're elevated? Either way, you're up, and that's what matters. Help others get "up," too, by offering a hand.

CANCER (June 22-July 22). The cryptic and casual communication style that usually works between loved ones and friends will fail you now. Communication must be clear, precise and full enough to get the point across in order to be effective.

LEO (July 23-Aug. 22). While drama is a part of every person's life, you somehow partake in more than your share. Well, today this can only happen to the detriment of your work. Steer clear of soap opera-type situations.

VIRGO (Aug. 23-Sept. 22). The very fact that

you aspire to a position makes it a possible reality for you. Now, all you have to do is determine what you're willing to trade in to get there. What would you have to say "no" to?

LIBRA (Sept. 23-Oct. 23). You sing with the songbirds now -- not because you have anything in particular to sing about, but, like the songbirds, because you don't. Happy and creative just might be your true nature!

SCORPIO (Oct. 24-Nov. 21). Your job situation is complex. One solution isn't going to work for every day. Sometimes pushing forward with full force is what it takes to get ahead. Other times, like today, you get further by staying put. Yes, do nothing.

SAGITTARIUS (Nov. 22-Dec. 21). What if your concept of who you are has been too small all along? Loved ones reinforce what you believe about yourself. So when they say you can or can't do it, they're only mirroring to you what you already believe.

CAPRICORN (Dec. 22-Jan. 19). Changing one small daily habit is enough to turn everything around for the better. For instance, make and eat a nice vegetable soup for dinner instead of your usual, less healthy fare.

AQUARIUS (Jan. 20-Feb. 18). People at work have come to know you as officially talented in one area. You're probably still the only one who realizes that you are also talented in a totally different way -- a way that deserves your exploration.

PISCES (Feb. 19-March 20). Put a lid on your doubts about someone, or they take over your personal life. The friend in question isn't entirely above reproach, but he or she is not so bad either. Stay neutral for now.
