We Thank Our Patrons

For their very generous patronage during our 18 months' business in this city. During that time our business has outgrown our present quarters. This we owe to your liberal support, and it is with pleasure we beg to inform you we have leased for a term of years the Samuel Whiteside Block, opposite the Palace Theater, where we will be at home to you after September 1st with a large and complete stock of Millinery and Ladies' Furnishing Goods.

A Parlor Rest Room

We have set aside a space in our store for your comfort, with easy chairs, writing desks and table of reading matter that is free to you all, and we will take it as a favor if, while shopping either at our store or elsewhere in the city, you will feel free to come in and rest. Remember this space is given for the sole purpose of making you a place to rest while in the city. It is yours. Come in and see us at our new home September 1st.

Yours very respectfully,

L. & G. B. ANDERSON

Boy Shah of The Persians

Ahmed Mirza, Successor of Mohammed Ali, Is Only Twelve Years Old.

Holder of Many Titles Is Called King of Kings and Shadow of God.

THE newly proclaimed shah of Persia, Ahmed Mirza, who is twelve years old, is the direct successor to his father, although he is but a second son. His mother was a princess of the Kajar blood, to which the reigning house of Persia belongs, and this circumstance alone qualified him for the succession to the throne. His elder brother, a son by a wife not of the royal blood, is excluded from all right to ascend the throne of Persia. Although this

semitic rendition of an appellation that was already venerable in the time of Cyrus and Xerxes and runs back in its antiquity to the earlier periods of the Old Testament.

Possessor of Many Titles.

Many are the other titles of the shah; many of them are even more splendid than the oldest of all of them. He is Zil Allah, the shadow of God; likewise Kibleh Alum, the center of the universe. Among the other superb names bestowed upon the ruler

AHMED MIRZA, THE NEW SHAH OF PERSIA.

rule is usually strictly enforced, it was disregarded in the succession of the Shah Mohammed Ali, recently deposed. He ascended, succeeding his father, although not of the royal blood on his mother's side and indeed to the exclusion of higher born half brothers. There are three brothers and several sisters. The royal family is very numerous, there being several thousand princes and princesses.

King of Kings.

The station of shah is, both in its traditions and in the oriental splendor of its titles, one of the most magnificent in the world of royalties. The title of shah-in-shah, king of kings, is

MUSICAL LAWN MOWER.

Jerseyman Invents Machine to End Ennui of Summer Boarders.

Lemuel Starkweather, who conducts a summer boarding house in North Caldwell, N. J., has solved the problem of keeping his lawn trimmed and entertaining the summer sojourners by perfecting a combination lawn mower and music box.

The story of the invention came out when the owner took the machine to a blacksmith shop to have it sharpened for the third time in two weeks. Up to a few weeks ago the Starkweather lawn was unkempt, and the boarders suffered from ennui in the quiet evenings, as the only music the house afforded was from a parlor organ.

Mr. Starkweather, who is ingenious, adapted the mechanism of a music box to the lawn mower, and the men boarders as well as two women visitors became eager to take turns at running the contrivance up and down the lawn in the cool of the evening.

The neighbors soon learned of the harmonious lawn mower and wanted to borrow it. The demand became so great that Mr. Starkweather says he now charges a fee for its use. With the money thus derived he expects to purchase several new records that will bring the machine up to date in a musical way.

Arithmetic For Girls on Farms.

Miss Jessie Field of Page county, Ill., had arranged an arithmetic which, she says, will meet every requirement of girls who expect to pass their lives on farms. She also believes the arithmetic will commend itself to the majority of young women in cities. It has no cube root or binomial theorem in it and has been simplified in other ways. Miss Field says that observation has convinced her that the feminine mind is not especially adapted for tackling the complicated problems of mathematics, and for that reason she expects her new work to win a popularity all its own.

by his admiring subjects are: Exalted as the planet Saturn; the well of knowledge; the king whose standard is the sun and whose splendor is the firmament.

A Divided Dominion.

The new shah inherits a dominion that is largely fallen into the hands of strangers. English and Russians have divided the Persian territory into spheres of influence. Russian troops are now, with British consent, in occupation of a large part of the Persian territory. Another portion in the district around the westerly city of Urmiah has been seized by the Turks.

PREDICTION OF WORLD FIGHT

Private Ownership of Land Will Make Trouble, Says Single Taxer.

Henry George, Jr., who recently arrived at London from a trip around the world, said that this tour had showed him that the question of land values was the greatest fight of modern times. It meant progress or ruin. It was the world's cause today.

Japan wanted money for her armies and ships, but Japan was poor and could no longer bear taxation. There would soon be a break in Japan unless a remedy was found for the burdens of the poor, whose poverty was worse than anything under feudalism. Private ownership of land in Japan is piling up misery, as it is also doing in the cities of England and America.

As for America, he said, the state of the poor is getting worse. In the past they had spilled their blood and spent their treasure to outroot slavery. Today they had a slavery more subtle, more entrenched, more interecine. But the United States was a republic of convulsions, and when the time came they would throw out the causes of poverty at whatever cost.

Des Moines as United States Capital.

J. F. Bishop, formerly editor of the Grand Army Advocate of Des Moines, Ia., is preparing the manuscript of a book on the subject of removing the capital of the United States from Washington to Des Moines. Mr. Bishop is confident that when the people of the United States come to understand the advantages of having the seat of the national government located centrally and are acquainted fully with the claims of the state of Iowa and Des Moines there will be no hesitancy on the part of their representatives in making the move.

Keeping Secrets in China.

Rear Admiral Sah Chen Ping of the Chinese navy has proposed to inflict upon any one who discloses secrets capital punishment instead of banishment, as has hitherto been the case.
