Dr. W. A. Foster is painting and refurbishing his office on North Second street.

Forty-two are taking the county examination for teachers' license. The room is given over to the struggle.

Tomorrow afternoon is ladies' day at the Commercial Club rooms. The rooms are always cool and delightful and a source of pleasure to all who go there.

Cheif Wells told Mr. Burnap to fix his board walk on Third between Washington and A streets, and the real estate man got mad and is now laying a cement walk there. If every other person would get angry in the same way, Corvallis would be the gainer.

The Peterson barber shop, in the building adjoining the Hotel Corvallis, will soon be ready for occupancy. A new front will be put into the building there, and already the inside is undergoing repairs. Peterson will install up-to-date equipment and will have a two-tub bathroom.

This morning the officials stopped the Small bakery people from making certain frame improvements at the rear of their Second street place of business. The ordinances provide certain regulations in matters of this kind and the officials propose to hold strictly to the ordinances. There will be a hearing before a council committee tonight.

Portland, Or.

W. A. Jensen, secretary to Pres. Kerr leaves tonight for the exposition at Seattle.

A large awning is being put up in front of the Farmers hotel. This is necessitated by removal of the large trees that stood there until a few weeks ago.

Corvallis is sometimes behind but seldom entirely out of the running. Even in the drawing for Coeur d'Alene land, Corvallis comes in for her little share. Hon. A. L. Stevenson, real estate man, auctioneer, booster, and automobile fiend, came in on number 2022, and after that number have made selection of land he may go to the reservation and take his choice of what is left. Considering the fact that there were but 3000 chances, A. L.'s is probably worth less than a half-million dollars. If pressed right hard he might take 25c for it. But he won, and that beats Caleb Davis, Jr., Jack Dawson, George Kerr and all the rest.

Many People Go East For Visit

Ole Paulson, of Corvallis, to St. Paul by way of Seattle.

Miss Edith McLeod, of Corvallis, to Seattle.

Emma Shough and daughters, Neva and Merl, to Hood River.

Mr. and Mrs. R. C. Carmichael and baby to Denver.

Mrs. Alice Stahlmaker, of Philomath, to Omaha, Neb., to be gone a month.

Mrs. Mary Scofield, of Corvallis, to Chicago.

E. J. Harrington, of Corvallis, to Minnesota, Colorado, Mexico and California.

Mrs. P. T. Starr, of Corvallis, to Kansas City and Kirksville, Mo.

SOMETHING ABOUT THE BOOSTERS

THINGS THAT WOULD HELP.

Do you remember Neil Newhouse's place, at the corner of 6th and Jefferson, before the fence was removed? The fence about this property was a substantial one, not particularly a beauty in appearance, but no pickets were missing and that fence could have stood there indefinitely without becoming unsightly. But Neil had no horses or chickens to keep in and came to the conclusion that his fence was not needed to keep animals out, so he removed it. Is there a person in this city recalling the appearance of the property some time ago who will say that the removal of the fence has not added 50 per cent in beauty? Mr. New house's well-kept lawn is now in full view and the house, which is set invitingly low does not look like it is in a stockade. The Taylor property is not wonderful in any sense, but is pleasing to look at. The structure is better than the average, but it is the harmony in the paint and surroundings, and the charm there is in a good lawn, a row of fine roses, and clematis, that pleases one with this property. And here is one example of what a high hedge may be used for to no disadvantage—cutting off the back yard. Mr. Newhouse may well feel pleased over the present appearance of his property, for it is pleasing to all who pass, and is a boost for the city.

Many lawns in this city give evidence that proper preparation of the bed was not made. While many lawns are fresh and green, they are very uneven and necessarily hard to cut satisfactorily. Those who expect to plant lawns in the future should profit by the experience of their fellowtownsmen. Before any seed is sown

the lawn bed should be made as smooth as a table. This will require a little extra work, but the end will justify it. When it comes to using the mower, the bumpy, uneven lawn is a source of annoyance, for a mower cannot be made to cut the grass evenly on such ground. If its worth while to make a lawn, its well worth while to do the little extra work necessary to make a lawn that will be the pride of every beholder.

The difference in city and town houses is not so much a matter of money as it is pride and careful effort.

Perhaps more than a few would regard it as an imposition on personal rights for this city to prescribe property lines, the distance forward at which a residence might be set on any lot in a given block, but it seems that some provision of the sort is about all that will cause people to be mindful of beauty and the feelings of their neighbors. A case in mind is the rooming house being erected on Monroe, just west of Jack Milne's. While there are no neighbors to be disturbed at present, except Jack, that house in its present location on the lot makes it impossible for that block ever to take on a pleasing appearance. The building is set almost on the street, so that residences on either side for a considerable distance will be cut off from any view. Until it rots down it will stand there and be as unsatisfactory to other residents on the block as a pole in the street would be to teamsters who must drive around it constantly. Suppose, for instance, that Mrs. C. H. Lee had set her splendid little house forward to within five feet of the sidewalk, what would have been the effect on the very attractive block west of 9th and Jefferson? Take any of the good looking residence blocks in the city and set one of the residences fifteen feet further front than the established property line, and what would be the result? This rooming house is not mentioned in severe criticism—it is merely cited as an instance and as a warning to others who might unwittingly make the same mistake. Corvallis is glad Mr. Walker is building a house there, but we believe he will agree with the great majority that he could have set his building further back to the distinct advantage of the street and the appearance of his building. Others may well keep this in mind and when building give some consideration to their neighbors, the appearance of the city and to the appearance of their own residence, which can not possibly be enhanced by being placed too close to the street line.

Washington's Plague Spots

Lie in the low, marshy bottoms of the Potomac, the breeding grounds of malaria germs. These germs cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility and bring suffering or death to thousands yearly. But Electric Bitters never fail to destroy them and cure malaria troubles. "They are the best all-around tonic and cure for malaria I ever used," writes R. M. James, of Louellen, S. C. They cure Stomach, Liver, Kidney and Blood Troubles and will prevent Typhoid. Try them, 50c. Guaranteed by all drug gists.
