MEN WHO RAN BROUGHT BACK

HARRY WAGGONER AND FRANCIS
CAUGHT AT LAGRANDE

IN JAIL FOR LACK OF BAIL

Men Skipped After Arrest For Gam-
bling and Grand Jury Decided to
Get Them ---- Deputy McGinnis
Brought Them Back Yesterday.

Harry Waggoner and Pren Francis, indicted by the recent grand jury, were caught at La Grande a day or so ago and brought to Corvallis, last night by Deputy Sheriff McGinnis. Judge Lane fixed their bail at \$500 and being unable to furnish it the men were put in jail.

These men were caught in a raid on a Second street cleaning and pressing parlor several weeks ago and charged with gambling. Each put up \$25 bail for their appearance the next day at 9 o'clock but skipped to Albany that night and have since kept away. The grand jury took up the case at its last meeting, and the arrest at LaGrande was the result. Unless the men furnish bail they will have to lie in jail until the next term of court.

LYBARGER, WHO COMES TONIGHT

Joliet (Ill.) News:—Nobody realized that this man was going to be head and shoulders above any orator ever in Joliet. But he was—a regular Gulliver among the Lilliputians. And Joliet has had some big men come from afar to anoint her head with facts from silver tongues. Wherever Mr. Lybar-

ger has been heard—and he has put in two seasons on the Chautauqua platform—he has proven to be an attraction of the first magnitude. But known or unknown, this man is great. His magnificent mind is trained and scholarly, and he has a tremendous grasp of truth. He sees the fundamental principles of things and can make his hearers see and understand them. He has a splendidly magnetic presence, a voice that is so deep and rich and resonant that its harmonies compel attention to his words, while his simple logic, his ready facts and absolute fairness do the rest. Prof. Lybarger's exposition of the natural laws governing the production and distribution of wealth was fascinating. There is nothing spectacular about his oratory or revolutionary in the principles he advocates. His answers satisfy. His explanations are lucid and his explanations practicable. As an orator Mr. Lybarger combines the qualities of a wonderfully profound mind with such brilliancy of expression and such simplicity of diction that the science of economics takes on the charm of a novel. He is a Socrates and Demosthenes in one.

UNCLE SAM INSULTED AGAIN

Albany Democrat:—The boys and men of the city yesterday carried their snow balling too far. It may have been all right with some people; but they had no business to allow it to interfere with business. Roy Houser, R. F. D. man was returning from his regular trip in the evening, on runners, when he was set on by a crowd, his team ran away, throwing him out and scattering the mail he had collected on his route.

MORE BOOTLEGGING

Eugene Register:—Five men were arrested yesterday afternoon and arraigned in Justice Bryson's court on the charge of selling liquor contrary to the local option law. They were: Chas. Miller, Harry Jackson, F. Steinback, Richard Downey, and Harvy (Si) Jones. All pleaded not guilty and bonds were fixed at \$250 each. None of them were able to furnish bail and all were taken to the county jail to await trial which is set for Thursday morning at 9:30 o'clock.

W. W. DAVIS GOES TO DALLAS

The Polk County Observer says:—"All persons who are interested in good singing in the public schools and Sunday schools of Dallas are invited to join a singing class to be organized Wednesday night by Professor W. W. Davis, of Corvallis. The first meeting will be held in the Presbyterian church. The place of future meetings will be decided by the class after organization shall have been effected. Many of the prominent singers of Dallas have already signified their intention to join. About forty names have been secured, but it is the desire of those interested in the movement to form a class of at least 50 members. Mr. Davis has offered to give twelve lessons for \$60, and this will make the cost to each individual very small. Professor Davis comes highly recommended and promises to do his part to make the school successful."

MAY HAVE THE RUGBY GAME HERE

PRES. KERR SAID TO FAVOR
MODIFICATION OR RUGBY

WILL BE EASY TO CHANGE

Pres. Kerr Thinks it Will Require No
Strong Effort to Displace Old Style
Football Game for the Rugby game
----Wants Milder Sport.

According to a college dispatch in the Oregonian W. J. Kerr, president of the Oregon Agricultural College, is in favor of abolishing the present collegiate game of football and substituting the Rugby game if the committee on rules fails to make a revision which will eliminate mass plays and reduce the chances for injury.

In an interview President Kerr said: "I am in favor of football, but I am of the opinion that the rules should be radically changed. I believe the standard taken by the colleges and universities of the country will result in a change of the rules at a meeting of the rules committee in December. If this is not done, I am in favor of abolishing the present game and substituting the Rugby game."

Dr. Kerr said he favored college sports of all kinds because they are great factors in the important work of physical education. In referring to football, he declared it had the greatest influence in popularizing athletic activity and therefore was of particular value as a college sport.

President Kerr is said to voice the sentiment of a majority of the college faculty in this matter. Indications are that this college will join the California institutions in the adoption of the Rugby game unless sweeping changes are made in the Ameri-

can game. It is the opinion of Dr. Kerr and others who have been studying athletic development in the Northwest, that there would be little difficulty in securing the adoption of the Rugby game by the institutions of the Pacific Coast.

THE GOOD NEWS IS CONFIRMED

The contract for the S. P.'s new station is let, and the surveys are made. The new building will be placed just north of the present structure, which will probably be moved to the rear and used for a freight house. It is also probable that work on the new station will begin before long. The contractor is now at work on four other depots, at Pendleton, Baker City, Stanfield and Wallace, Idaho. It gets too cold to work at some of the places and since it is warm here and will so continue, the workmen will probably be transferred to Corvallis.

RETURN THANKS

The Nesmith County Committee desires, through the columns of the Gazette-Times, to express its appreciation and extend its thanks to the citizens of Oregon for the assistance rendered it in procuring the requisite number of signatures of legal voters to a petition for the creation of Nesmith county. It is through the liberal mindedness of the citizenship of the state that the committee has been enabled to file a petition with the Secretary of the State with 25 per cent more signatures than required by law, showing that the people recognize the justice of our claim and are willing that the qualified electors of the state pass judgement upon the question at issue at the next general election. Committee,
By G. L. Rees, Secy.
