KLAMATH TRIBUNE HITS PRESS; MONTHLY ISSUES ARE PLANNED

This paper represents the first issue of the Klamath Tribune, this name having been selected by staff members of the Klamath Information and Education Program. The Klamath Tribune is designed to make available to Klamath Tribal members information on all aspects of the termination law, (Public Law 587), and progress made under that law. It is planned to publish general sections on such items of interest to tribal members as the vocational-educational program, the agricultural program, and legal matters connected with Public Law 587. Special articles will be run covering any of these fields or other fields of importance to the tribe.

The Klamath Tribune will appear monthly and each issue will be made available to all members of the tribe.

MRS. FRANK BELL APPOINTED TO TEACH BUSINESS CLASSES

Sixteen eager tribal members attended the first meeting of the Business Night School on October 16 at Chiloquin High School.

Interest was expressed by tribal members in such a school and the education department established the commercial program to meet this need.

Mrs. Frank Bell, well qualified commercial teacher at Chiloquin High was appointed to instruct these adult classes.

Classes which meet every Tuesday and Thursday between 7 P.M. and 9:30 P.M. are open to any adult members of the tribe. Applications for the next term are now being taken at the Chiloquin Education office.

STUDENTS COMPLETE SCHOOL YEAR AT OTI

Twenty-one students enrolled at OTI under the Klamath Education Program successfully completed the 1955-56 school year in June.

Following are the students completing the year, and their courses: William Barfield, Body and Fender; Charles Barney, Body and Fender; Finley Barney, Commercial Art; Paul Bellm, Gunsmithing; Barbara Busby, Medical Technology; Don Carter, Diesel; Clarence Courtney, Sanitation; Irwin Crume, Auto Mechanics; Patsy Crume, Baking; Arlen David, Radio-TV; Randolph David, Auto Mechanics; Harold Hatcher, Carpentry; Margaret Huntsinger, Baking; Eugene Keane, Body and Fender; Helen Malone, Medical Technology; Ben Mitchell, Body and Fender; Isom Mitchell, Radio-TV; Ernestine Ortis, X-Ray Technology; Carroll Shadley, Baking; Alton Thompson, Diesel; Antonio Unive, Business.

Of these students, Don Carter finished his course. In addition, Clarence Courtney and Margaret Huntsinger made the honor roll for spring term.

Question: Are Indian languages crude and simple?

Answer: No. Their grammars are complicated and their vocabularies large. Three Indian languages chosen at random were found to possess more than 7,000, 11,000 and 19,000 words. The vocabulary of the average English speaking person is rarely more than 10,000 words.

According to linguistic experts, the Klamath language has a complex grammar and a rich vocabulary.

FALL TERM CLASSES AT OTI NOW IN SESSION; WIDE VARIETY OF COURSES OFFERED

Classes for the 1956-57 school year at OTI fall term began on September 24.

Oregon Technical Institute is a vocational type school offering training in such fields as business, industrial occupations, and technical occupations. Klamath Students have been enrolled in each of these three main fields, receiving training through use of materials, equipment, etc., which they will actually encounter on the job, and under working conditions similar to those met on the job. Klamath students in auto mechanics, for instance, work on cars, their own or belonging to others, in shops similar to those actually in operation as businesses.

Some of the departments at OTI and fields of study, taught under them are listed as follows:

School of Agricultural Technology: Farm Technology, Live-

stock Production Technology, Farm Mechanics, Farm Machinery Mechanics.

School of Industrial Technology: Auto Machinist, Auto Mechanics, Automatic Transmissions, Auto Technology, Automotive Electricity and Tune-up, Auto Body and Fender Repair, Diesel Mechanics, Diesel Technology, Combination Welding, Cabinet Making, Carpentry, Refrigeration Servicing, Gunsmithing, Sports Equipment, Baking.

School of Technical Associates: Accounting, Dental Office Assistant, Secretarial Technology, General Office-Training, Medical Technology, X-Ray Technology, Sanitation and Water Technology, Surveying Technology, Radio and Television Technology, Electronics Technology, Commercial Illustration and Design, Watchmaking and Clockmaking Technology, and Office Machines. Most of these courses are two school years in length.

Clarence Courtney, left, and Russell Anderson discuss engineering problems at OTI. Courtney is enrolled in sanitation under the Klamath Education Program. Anderson took training during the 1955-56 school year under the coastal Indian Education Program.
