

MUST SUBMIT CURE TO TESTS

New York Medical Authorities Skeptical of Friedmann.

Health Board Insists New Tuberculosis Cure Be Tried on Animals Instead of Human Beings.

New York—The city health authorities gave Dr. F. F. Friedmann, of Berlin, permission Thursday to test the treatment which he asserts is a cure for tuberculosis, if Dr. Friedmann decides to submit to a test which the board of health will allow to be undertaken in a city institution.

The board of health's sanction, hitherto withheld, was granted conditionally after the visiting Berlin physician submitted to the board a tube containing a culture of the bacilli. Dr. Ernst J. Lederle, commissioner of health, said his department would test the culture on animals.

The chief purpose of this official analysis is to determine whether the serum is harmful. If it should prove to be of no possible danger, the board of health will issue a permit to Dr. Friedmann.

Dr. Friedmann has not fully decided to accept the latest offer of the authorities and conduct his experiments on animals, but public pressure will probably induce him to go ahead and make the best showing possible under the prescribed restraints.

Dr. Friedmann is being barred from making general use of his discovery because he holds no state license as a practicing physician.

"The health department will not object to his use of the treatment in the city provided he lives up to the legal regulations of the County Medical society," said Dr. Ernst J. Lederle, the health commissioner, in a statement on the action of the authorities regarding Dr. Friedmann's treatment.

"His treatment will not be demonstrated in city institutions, however."

The New York County Medical society, which protested against tests because Dr. Friedmann held no license, will not stand in the way if any hospital appoints the Berlin doctor a resident physician. Under such appointment he will not need a state license.

CRUISER RAMS TORPEDO BOAT; 63 GERMANS SINK

Hellgoland, Germany—Sixty-three men lost their lives when the German cruiser York rammed the torpedo boat G-178 in the North Sea Thursday night.

The dead men are all members of the crew of the torpedo boat, which sank immediately after the disaster. Lieutenant Kock, commander of the boat, and his first officer, are among the dead. Seventeen were saved from the damaged vessel, among the number being the surgeon and the chief engineer.

A mistake in calculation of distance on the part of the commander of the sunken vessel caused the accident. The torpedo boat attempted to pass between a line of moving warships.

Woman Judge Tries Girls.

Chicago—Fifteen cases were disposed of Thursday in "Judge" Mary H. Bartelme's court. It was the first day of the court, the attaches of which are all women, and Miss Bartelme expressed herself as highly pleased with the results.

Not a man is admitted to the court room, where the hearings are limited to the cases of either wayward girls or those "who never had a chance."

Miss Bartelme was appointed by Judge Pinckney, of the juvenile court, to hear this class of cases, holding that many girls could more easily tell their stories to a woman than a man. Her woman probation officers acted as bailiffs and there was a woman clerk of the court.

"It is our hope to get justice for these girls and judging by the first day's work I think we will be successful," said Miss Bartelme.

Warship Badly Damaged.

New York—Workmen examining the hull of the United States battleship Arkansas in drydock at the Brooklyn navy yard found an opening about 15 feet long and two inches wide, resulting from an opened seam on the port side forward. The Arkansas several weeks ago struck a coral reef off Guantanamo. She was placed in drydock after arriving here with two compartments flooded. Navy yard officials said unofficially that the repairs would cost about \$100,000 and would take several months.

Aviators Dodge Assessor.

Alameda, Cal.—Modern inventions complicate the life of a tax assessor, as Deputy City Assessor Frank Quigley learned when he went out to an aviation field on the outskirts of the city to set values for tax purposes on eight airplanes that are stored there. The owners saw him coming from afar, and by the time he reached the field his quarry had flown—literally. He sat down to wait. They came back presently and found Quigley still there. He assessed the eight machines at from \$500 to \$1000 each.

Strike Is Sympathetic.

Cleveland, O.—A strike of rubber workers initiated here by Industrial Workers of the World, in sympathy with the strike of rubber workers at Akron, O., reached good-sized proportions Thursday. Strike leaders said that 1000 men and girls had quit work at the plant of the Mechanical Rubber company. Company officials admitted that 600 had walked out. The strikers condemn a newly instituted piece work scale.

Wilson's Parents Honored.

Columbia, S. C.—As a tribute to President Wilson, the graves here of his father and mother in a cemetery here were covered with flowers Tuesday by the Ladies' Church society. Dr. Joseph Wilson, President Wilson's father, taught in a theological seminary here from 1870 to 1874. He died at Princeton and his body was brought here for interment. Mrs. Wilson's death preceded that of her husband by several years.

Krown Casualties 400.

Washington—Although the known casualties for inauguration day and night reached a total of about 400, few were serious and most of them were of minor nature. Many of the injured, especially those who received blows at the display of fireworks, were treated in the downtown section without the aid of ambulances.

TAFT SIGNS MANY MEASURES

Last Hours of Administration Full of Important Acts.

Washington, D. C.—Among President Taft's last acts was the signing of the rivers and harbors bill, the postoffice bill and the public buildings bill. The river and harbor bill contains appropriations of great moment to the Columbia river, including that of \$1,000,000 for the mouth of the river and \$1,200,000 for the Celilo improvement.

In view of the great need for a new postoffice at Portland Senators Chamberlain and Lane will urge prompt action by the department in calling for competitive plans.

Despite the fact that he signed the public buildings bill, President Taft sent to congress with it a memorandum saying that he would like to have withheld his signature. Because of many projects in it, he held to be meritorious, he added, he had decided to approve it.

"There are in this bill items aggregating perhaps \$500,000 that ought not to be in it, authorizing the construction of public buildings in towns too small to justify them," said the President, "and on that ground, for the purpose of giving emphasis to my views on the subject, I should like to withhold my signature from the bill. But the bill contains authorizations for improvements so important in the development—and I say the unduly delayed development—of the city of Washington, that I cannot bring myself to defeat such worthy projects."

"The bill, in itself, contains certain restrictions upon future appropriations of a similar kind that may tend to prevent the vicious 'pork barrel' feature of bills of this character."

President Taft vetoed the sundry bill, carrying \$115,000,000, because of its provisions exempting labor unions and farmers' organizations from prosecution under the anti-trust law. Most of the appropriations would not take effect until July 1, however, and the new congress can prepare appropriation measures by then.

The provision to which Mr. Taft objected provided that no funds could be spent in the prosecution of organizations or individuals for "entering into any combination or agreement having in view the increasing of wages, shortening of hours or bettering the conditions of labor" or for the production of "producers of farm products and associations of farmers who cooperate and organize to obtain and maintain a fair and reasonable price for their products." This he declared was "class legislation of the most vicious sort" and undoubtedly would be held unconstitutional by the courts.

Referring to the farmers' clause, President Taft said: "At a time when there is widespread complaint of the high cost of living, it certainly would be an anomaly to put on the statute books of the United States an act in effect preventing the prosecution of combinations of producers of farm products for the purpose of artificially controlling prices."

The house re-passed the bill over the veto, but when it reached the senate, Senator Poindexter objected to any appropriation for the Washington police force, unless an investigation had been made into the riotous scenes attending the suffrage parade Monday, and the senate did not vote on the bill.

Failure of the bill means that another bill must be passed by the special session, and among the things the new bills must deal with are Crater Lake and Mount Rainier national parks, which are always provided for in this supply bill. Several Democratic members of the appropriations committee who will be members of this committee in the new congress are emphatic in declaring they intend to urge the house to act on the joint suggestion of Representatives Lafferty and Warburton, and provide in the next sundry bill for conveying Crater Lake park to the state of Oregon and Rainier park to the state of Washington.

Moros Attacking Jolo.

Maniila—The town of Jolo has undergone incessant attack by the Moros for the last two weeks. Details of the operations are meager, as a rigid censorship is in force. That the fighting has been serious is obvious from the arrival here Wednesday of 32 wounded Americans.

The Moros, it is reported, continue flinging taunts at the defenders of the town, calling on them to "come out and fight in American fashion and not like pigs." The troops are chafing greatly at their inaction.

Breckons Resigns Post.

Honolulu—Robert W. Breckons, United States district attorney at Honolulu, has forwarded his resignation to Washington owing to the change in administration. Breckons has been a lifelong Republican and desires to remain loyal to his party. His example was not emulated by any other Federal officials. Roosevelt appointed Breckons to the important island post in 1902 and he has served continuously ever since. He formerly resided in Cheyenne, Wyo., where he held several public offices.
