

Always Making Friends

For the fortunate experience of Hood's Sarsaparilla. While neighborhoods love and praise it for the cures it has made. "I know by experience that Hood's Sarsaparilla is a grand, good medicine. I am more glad in taking it than its proprietors are in selling it. In malaria and loss of appetite it drove out the chills, gave me a good appetite and digestion. For twenty years I have known and used it, so I call it a good old reliable family medicine. We recommend it to all our friends." James Johnson, 551 E. Indiana Avenue, Philadelphia, Pa.

Three Babies Walked Fifteen Miles.

Three children—Ida Farrow, eight years old, Willie Farrow, five, and Ida Benton, six, of Petersburg—walked 15 1/2 miles to Whaploode Drove on recent Sunday to see their grandfather. The children, who undertook the journey unknown to their parents, arrived exhausted, and after being fed and rested were driven home again.—London Mail.

WILSON REVOKES TAFT'S ORDERS

Postmasters in 50,000 Offices Will Be Appointed.

Second and Third Class Places to Be Placed Under Civil Service Within the Year.

Washington, D. C.—All fourth class postmasterhips except those paying less than \$180 a year were thrown open to competition by an executive order issued by President Wilson. These positions, are retained in the classified section, but about 50,000 incumbents who were "covered in" into the classified services by executive orders of previous administrations, will have to meet all-comers in competitive examinations in order to hold their positions with civil service protection.

In a statement making this order public, Postmaster General Bursell announced that it was the purpose of President Wilson and himself to extend the classified service to include presidential postmasters of the second and third classes, probably within a year. This may require legislation by congress, he said.

Under President Taft's order of October 15, 1912, fourth class postmasters were divided into two classes, "class A," those drawing more than \$500 a year, and "class B," those drawing less than \$500 per year. Competitive examinations were prescribed for future applications for class A appointments, while the class B positions were to be filled on returns of postoffice inspectors. Wilson's order leaves only the offices paying \$180 or less to be filled on inspectors' reports.

HEAVY IMMIGRATION COMING

Panama Canal to Bring Many to Pacific Coast.

Berlin—The exemption of American vessels from the payment of tolls for passing through the Panama canal is unjust and places German shipping at a disadvantage, according to Philip Heineken, managing director of the North German Lloyd, who writes to the Tageblatt. He expresses confidence, however, that German shipping interests are sufficiently powerful and enterprising to maintain competition even under these circumstances.

Herr Heineken hopes, under President Wilson's regime, the measure of discrimination will be revoked. He foresees a big immigrant traffic to the Pacific Coast of both the United States and Canada, and in a more limited way also to South America.

VITALITY IN SEVERED PARTS

Scientists Claim Tissues May Hold Life Many Years.

Washington, D. C.—Sustained life in parts of the human tissue after the organism had died, like the snake's tail, which the schoolboy believed does not die until the sun was set, was the theme discussed at the closing session of the congress of American Physicians and Surgeons.

According to the papers read by eminent authorities, life in cells taken from a living animal organism has been sustained under certain conditions for more than four years after the animal from which they were taken ceased to exist. The speakers declared that it ultimately would be clearly demonstrated that life in severed cells could be sustained for as long a period as the organism would live under normal conditions.

Many of the scientists declared their belief that life could be maintained in severed cells and that there could be regular growth in the actual cell divisions and not merely degenerative movement.

It also was declared that life could be suspended and made active again through the application of a proper medium.

Socialists Get on Ballot.

Los Angeles—Despite the fact that Job Harriman, their standard bearer, was defeated by 784 votes for a place on the election ballot, 15 other Socialists qualified in the primary election, which assures another warm campaign between now and June 3, the city election, between Socialists and anti-Socialists. Charles O. Morgan, Socialist candidate for city attorney, was a place in the final ballot, as did six out of seven Socialist candidates for the board of education and eight out of nine candidates for council.

World's Cattle Studied.

Rome—The general assembly of the International Institute of Agriculture, occupied its time Thursday with the consideration of the increase in the price of meats. It was decided to collect statistics of cattle throughout the world for the purpose of studying the causes of the increase in cost and devising a means to combat it. A table will be prepared showing the consumption of meats in different countries.

Noted Explorer is Dead.

New York—William F. C. Nindemann, one of the two survivors of Commander De Long's party in the Jeanette expedition into North Polar regions 14 years ago, died at his home at Hollis, L. I., Wednesday. He was born in Germany in 1856 and became an explorer at the age of 21.

PROPER CARE OF CUT GLASS

Elaborate Precautions Necessary to Preserve the Beautiful But Extremely Delicate Article.

Cut glass is very fashionable now, and is used upon the dinner table and in the drawing room with great success. But alas! How easily it can be chipped and spoiled. What precautions can be taken with the precious pieces?

Cut glass must be handled very carefully when it is washed, so that no risk is run of chipping it. A wooden bowl will help.

Place in a wooden bowl some shavings of mild white soap and pour over these boiling water.

When the water has become lukewarm wash the glass in the suds, using a soft nail brush. Then dip the glass in a second wooden bowl, this time filled with clear lukewarm water, until all traces of soap is removed.

Now dip the glass into a third bowl of luke warm water to which bluing has been added (for the bluing will give a brilliancy to the glass) and then dry it with a very soft cloth. Polish it with soft tissue paper.

Gilded and patterned china may well be washed in the same careful way, but the bluing should be omitted.

Compressed Sponges.

A compressed sponge is a bit of toilette daintiness intended specially for travelers, though it appeals as well to the stay-at-home who is an ultra-hygienist. The sponge is of compressed absorbent cotton about the size of a twenty-five cent piece, and half an inch in thickness. Dropped into water it becomes saturated and expands to the size of a small face cloth, large enough to wipe the face free from dust and grime.

BEEF BRAISED A LA BRISSE

Change From the Familiar Roast is Something That Will Be Appreciated By the Family.

Take a rump piece of beef, weighing at least eight pounds, and lard it with half a pound of salt pork, cut in long, half-inch square pieces. Season well with allspice, chopped parsley, and a little garlic. Tie up firmly and place in the stew pan with four ounces of melted beef suet; fry briskly until a crisp brown all over. Drain off the fat, add a quart of broth made from bones and trimmings, two cups tomato sauce; a bunch of parsley; two onions, and about a quart and pint of quartered turnips. Let boil up, then cover and let simmer gently for nearly three hours. Take out the beef and place on a platter and rub the vegetables through a sieve into the sauce pan, skim off all fat from the gravy and reduce to the consistency of their sauce, then press the turnips, etc., through a fine sieve to make a puree. Turn onto the platter and place the meat on the puree. Pour some of the gravy over the meat and serve.

Good Dumpings.

Many cooks fail with dumpings from letting the mixture stand after it is blended or from letting the water under them get below the boiling point, says the Commoner. Mix and sift two cups of flour and four teaspoonfuls of baking powder and one-half teaspoonful of salt. Work into this three teaspoonfuls of butter, using the tips of the fingers, then add gradually three-fourths of a cupful of sweet milk; put out onto a floured board and without working, roll out to half an inch thick; cut in any shape desired, or in strips, dip in flour and lay the pieces close together in a well-greased steamer; set this over a kettle of boiling water, cover closely and steam for fourteen minutes, keeping the water below rapidly boiling. Serve as soon as possible with portions of meat.

Baked Peas.

Now that it is between times of old and new vegetables, try this recipe: Baked peas: One-half pound dried green peas, one onion, one carrot, one teaspoonful sugar, pinch of soda, a generous tablespoon of butter, water. Soak peas over night, put in bean crock in the morning with the other ingredients and cover with water. Bake six hours or all day in slow oven, adding water when it evaporates. When ready to serve remove onion and carrot. This dish will be found very nutritious and appetizing.

Laziness and Logic.

Why are we still indolent and neglectful and sluggish, and why do we seek pretenses for not laboring and not being watchful in cultivating our reason?—Epictetus.

Feminine Ambition Rebuked.

The instinctive masculine attitude toward feminine ambition is sometimes manifest in early years. Three-year-old Richard was observed in the barnyard one day, following with solicitous attention the movements of a hen who was trying to crow. Finally he inquired kindly, though with evident disapproval: "Is anything the matter with you?"

Roses From Italy.

The rose, so long considered the floral emblem of England, was not known in that country until the early part of the fifteenth century. Rose trees were then brought from Italy and planted in the royal gardens. They were sent as presents from the holy father and highly esteemed by royalty. It became the custom to carve them over the doors of the confessional as holy flowers, hence the term sub rosa (under the rose) used to mean "with secrecy."—Ave Maria.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Sugar-coated tiny granules.

Er-Yes, He Had.

"Pardon me, Mr. Peever," said the chance acquaintance as the two helped hold up the cafe bar, "but have you ever had a serious accident?" "Well," replied Mr. Peever, "I met my wife by accident!"

Quick Mustard Plaster.

A trained nurse says that if one forgets the exact proportion for making a mustard plaster one can be quickly made by cutting a thick slice of bread, dipping it for just a second in hot water, then spreading with white of egg, and sprinkling thickly with mustard. The egg will prevent blistering.

HOSTETTER'S STOMACH BITTERS

MR. A. H. POWELL, Manufacturing Chemist, Spokane, Wash.

Dear Sir: Having suffered with stomach trouble for a number of years, and tried a great many doctors and a great many proprietary preparations but obtained no permanent relief until I took your stomach remedy, and am pleased to say that I have no further stomach trouble and am not anything I desire and suffer no bad results. I am a professional nurse, having nursed for 30 years, some of the time for Dr. Hall of New York City, the greatest specialist on children's diseases; also had charge of Wardner Hospital at Wardner, Idaho, for two years. Since learning by my own experience the great benefit from the use of Powell's Stomach Remedy, I have recommended it to a great many for children and adults, and in each case it has been remarkable for the good it has done. I cheerfully recommend it to anyone suffering with any kind of stomach trouble, as I am anxious in all cases suffering from weakness of any kind, and I have never known of medicine to compare with Powell's Stomach Remedy for all kinds of stomach trouble. Yours truly,
