# English Writer Makes Interesting A. BIG TORNADO HITS NEBRASKA

This Frenchman was really a Ger Twister Wrecks 22 Houses and Kills Ten People.

> All Wires Down; Damage in Country Not Known Many Injured by Wreckage.

Seward, Neb. - A tornado which took a toll of ten lives, injured 30-odd persons and destroyed more than a third of the town passed through Sewther's business he was accustomed to ard shortly before 6 o'clock Thursday

Twenty-two residences, including several of the best in the town, were entirely destroyed and many more were partially wreeked, but the business portion of the place did not suffer greatly.

The tornado formed northwest of the city and swept across the country, taking many buildings along its course. It struck the western or residence portion of the town of Seward and swept everything in its path clear. It came on the town so suddenly that only part of the people had opportunity to run to cellars or other places of refuge. Those killed generally were caught in the wreckage of their homes, which were crushed to pieces like eggshells.

The tornado, after passing through Seward, continued on its course to the northeast, doing great damage to rural homes. Reports say that the towns of Lushton, Grafton, Utica and McCool were in the path of the twister, but all wire communication to those points was destroyed.

An appeal was sent to Lincoln before the one remaining telephone wire was lost, for physicians and undertakers, and they left on a freight train at 10:30 p. m.

Reports from surrounding sections indicate that the effects of the tornado were felt over a wide range of territory, but until telephone communication is restored the number of casualties will not be known,

The tornado was followed in Seward by a hail and rain storm.
