ST. HELENS, OREGON

Ordinance No. 147

An ordinance declaring the intention of the Common Council of the City of St. Helens, Oregon, to establish a sewer system within sewer district No. 7, of said city, and the necessity therefor; showing the location of the same; the material out of which the said sewer shall be constructed; appointing appraisers or arbitrators, to appraise the probable costs etc., and providing for notice to property owners.

Whereas, the city engineer of the city of St. Helens, Oregon, has divided said city into sewer districts, in accordance with the natural topography of the several additions, blocks and lots comprising said city, of which the hereinafter described district is and shall be known as Sewer District No. 7, of said city, and in relation thereto has furnished such recommendations, maps and illustrations as are needed for the guidance of the common council of said city;

And whereas said district embraces a large number of inhabitant and residents, and is utterly without any system of sewerage or drainage;

And whereas, there is grave apprehension of an epidemic of sickness from the want of proper sewer facilities in said district;

And whereas, it is obvious to the common council of said city and to the city health officer thereof, that a sewerage system is necessary for the health and convenience of the city and its inhabitants, and especially of that portion of said city embraced in said district and the residents thereof;

Now, therefore, The City of St. Helens does ordain as follows:

Section 1. That in pursuance of Chapter XI, of the charter of the city of St. Helens, Oregon, relating to sewers and drains, the city engineer of said city has divided the said city into sewer districts and has numbered the same consecutively in accordance with the natural topography of the several additions, blocks and lots composing said city, and among others has numbered and designated one as Sewer District No. 7, of said city, the boundaries of which are as follows, to-wit:

Beginning at the intersection of the south line of Willamette street with the east line of Winter street, in St. Helens, Oregon, running thence westerly along the south line of Willamette street, 600 feet to the center of Hemlock street; thence northerly on the center line of Hemlock street, 196 feet; thence westerly 140 feet to the corner of lots 2, 3, 20 and 21, block 60; thence southerly along the center line of said block 58; thence westerly and parallel with Willamette street, 140 feet to the center of Walla Walla street; thence northerly on the center line of Walla Walla street,

620 feet to the center of Wyeth street; thence easterly along the center of Wyeth street, 140 feet; thence northerly and parallel with Walla Walla street, 272 feet; thence easterly and parallel with Wyeth street 100 feet to the west line of Hemlock street; thence northerly along the west line of Hemlock street 446 feet to the center line of West street; thence westerly along the center line of West street 240 feet to the center of Walla Walla street; thence northerly on the center line of Walla Walla street 214 feet; thence easterly and parallel with West street 140 feet to the corner of lots 3, 4, 19 and 20, in Block 4 of Columbia Park, now a part of St. Helens; thence northerly and parallel with Walla Walla street, 174 feet to the corner of lots 6, 7, 16 and 17 of said block 4; thence easterly and parallel with West street, 140 feet to the center of Hemlock street; thence northerly on the center line of Hemlock street 290 feet, more or less, to the north line of Columbia Park; thence easterly on the north line thereof, 840 feet to the center line of Oak street; thence southerly along the center line of Oak street 678 feet to the center line of West street, thence westerly on the center line of West street 40 feet, thence southerly and parallel with Oak street 214 feet, thence westerly and parallel with West

street, 100 feet to the common corner of lots 8, 9, 14 and 15 in block 30 of St. Helens, thence southerly and parallel with Oak street 544 feet to the south line of Wyeth street, thence westerly on the south line of Wyeth street 100 feet to the northwest corner of block 31 of St. Helens, thence southerly along the west line of block 31, 718 feet to the place of beginning, containing 198 lots, and said sewer district shall be henceforth known as sewer district No. 7 of said city;

Section 2. It is hereby declared that a sewerage system within said sewer district is necessary for the health and convenience of said city and its inhabitants, and especially is it necessary for the health and convenience of said sewer district No. 7 and the residents and inhabitants thereof; and it is the intention of the common council of said city to establish a sewer system therein because of such necessity;

Section 3. That the location of said sewer, with its laterals and branches, will be as shown on the plan submitted by J. A. McQuinn, city engineer, to the common council, and filed with the recorder of said city May 22nd, 1913;

Section 4. That the sewer pipe will be of glazed, vitrified clay, and the sub-drain, wherever used, will be of drain tile, the size of which, together with a

particular description of all other material can be ascertained by an inspection of the specifications filed with the said city recorder on May 22nd, 1913, and made a part hereof;

Section 5. That W. J. Fullerton, J. Q. Gage and H. P. Ross are hereby appointed appraisers and arbitrators to make the appraisal of the probable costs of said sewerage system among all the real estate owners in said district, in accordance with the provisions of the city charter, as well as to perform such other duties as are required of them, thereunder.

Section 6. That notice shall be given by the city recorder, for two successive weeks in a newspaper of general circulation in said city and by posting for the same length of time, in three public places in said city, definitely fixing the time and place of meeting to be held by the common council of said city for the purpose of hearing any and all complaints by or on the part of any and all property owners within the limits of said district, and all persons whose property is so affected shall have the right to appear and make and file their

objections to the locations of the boundaries of the district, or other objections to such improvements; and the said council shall have the power under this ordinance to make such alterations as it shall deem in accordance with justice and for the best interests of said city.

Approved by the Mayor May 26th, 1913.

A. W. Mueller, Mayor.
E. E. Quick, Recorder.

Attest

If one wishes to keep any of the flowering bulbs for another season, it is well to let them stay in the pots in which they blossomed or in the ground until fall or until the tops are dead and dry. They should then be taken up, dried gradually, but thoroughly, and be stored where they will keep dry. As a rule, the new bulbs which form on the roots of the tulips will be the larger in size and number if the plant is not allowed to blossom.
