**TRADES OF LITTLE ANIMALS**  
Bees are Geometricians. While Mole is Meteorologist and Many Birds are Musicians.

Bees are geometricians. The cells are constructed so that with the least quantity of material they have the largest spaces and least possible loss of interference.

The mole is a meteorologist. He is a navigator. He raises and lowers his mounds and weighs anchor, and performs other nautical acts.

White birds are musicians. The heavier is an architect, builder and wood cutter; he cuts down trees and erects houses and dams.

The marmot is a civil engineer; he not only builds houses, but constructs aqueducts and drains to keep them dry.

The white ants maintain a regular army of soldiers. Wasps are paper manufacturers. Caterpillars are silk spinners. The squirrel is a ferryman; with a chip or a piece of bark for a boat and his tail for a sail he crosses the stream. Dogs, wolves, jackals and many others are hunters. The monkey is a rope dancer. The black bear and the beaver are fishermen, and the busy ants are regular day laborers.

**GAME FOR RECESS AT SCHOOL**  
Twenty or Twenty-Five Boys and Girls May Participate in Pastime While Clasp Hands.

This game may be played at recess with as many as twenty or twenty-five girls and boys taking part in it. All of the players except three clasp hands and form a circle. Inside the ring is the orchard where the fox, one of the players, takes his place. The farmer, another one of the extra players, stands on the outside of the ring and calls to another player, who is outside the ring, saying: "Bruno, a fox is in the orchard." Then the fox runs from the circle beneath the players' uplifted hands. Bruno chases him, first entering the circle and then following just where the fox runs.

All through the game the dog, Bruno, must imitate everything that the fox does just as players in "follow their leader" imitate their leader. If the fox jumps up to touch the branch of a tree Bruno must imitate. Sometimes the fox does many stunts which amuse the ring players very much and which make it hard for the dog. If the dog does not follow he cannot go on with his part of the game, but must join the ring. Then the fox becomes dog and a new fox is chosen. When the dog captures the fox he becomes the fox for the new game and the fox goes into the ring. Then a new dog is chosen. When the ring is very large there may be two foxes within the circle and two dogs to chase them.

**ONLY ONE "YANKEE"**  
That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Cures a Cold in One Day. Cures Grip in Two Days, Etc.

**The Word "Yankee"**  
The origin of the word "Yankee" has been variously explained. Some authorities think it is a corruption of the word English, as it was pronounced by the American Indians who called the white people "Yenghies." It seems first to have been applied to the British soldiers about 1775, as a term of reproach to the New Englanders who afterwards adopted it themselves.

Others hold that Yankee is a corruption of Jankin, or John, a nickname given to the English colonists of Connecticut by the Dutch settlers of New York. The song "Yankee Doodle," was originally "Nankee Doodle," and was applied to Oliver Cromwell.

**A Bed of Roses.**  
You hear people quote an old saying sometimes about such and such a place being no bed of roses. That does not mean garden beds, but real beds on which people sleep. There used to be mattresses, cushions and couches stuffed with dried rose leaves both in Greece and Rome, and Antiochus, when he meant to enjoy himself very much, slept in a tent of gold and silver in a bed stuffed with roses. Those times are past and gone, but you still see in many houses baskets and bowls of dried rose leaves standing about.

**Wolf Dogs in Ireland.**  
Wild wolf-dogs are still found in the remote parts of Ireland. They have soft, round ears, rather pleasant, broad faces, and can easily be tamed if they are caught young. They do not hunt in packs, like wolves, but usually live and hunt apart, with their mates. In bodily conformation they are much like the Eskimo dog, but of slighter build.

**"Fashion" or "Cookery?"**

**\$40,000,000 Insurance Placed on Morgan's Collection.**

**Real Value Unknown—4100 Objects to Be Shown to Public—Many Others Are In London.**

New York — Although the precise value of the Morgan art collection at the Metropolitan Museum was not obtainable, it was learned that it had been insured by J. P. Morgan as executor of his father's will for \$20,000,000.

This figure, however, does not represent the full value of the collection, but only the maximum of insurance procurable throughout the world on that particular risk in that particular building.

Agents of the Morgan estate have been trying throughout the world for additional insurance without success, and have now come to the conclusion that they have obtained about all the insurance possible on the collection.

It develops that the late J. P. Morgan never insured his art objects or seemed to see any necessity for doing so.

The \$20,000,000 thus obtained in insurance, however, does not cover the total insurance on the art collections left by Mr. Morgan. An additional \$10,000,000 of insurance has been obtained on the art collection in Mr. Morgan's private gallery on Thirty-sixth street.

Another \$10,000,000 of insurance has been obtained by Mr. Morgan as trustee on the art collection in his father's London house at Princess Gate. This would bring the total of insurance so far obtained on the chief Morgan art collections up to \$40,000,000.

The art treasures are to be placed on view for the American public as soon as arrangements can be completed, it was announced at the Metropolitan Museum of Art. The art objects, numbering about 4,100, will be exhibited temporarily in one of the museum's new wings, early in 1914, according to present plans.

**TOOK DYNAMITE FOR PAINT**  
**Witnesses Show Danger of Alleged Plot Against Strikers.**

Boston—Another big crowd listened Thursday to the evidence adduced by District Attorney Pelletier in support of the charge that William Wood, president of the American Woolen company, and Frederick F. Atteaux, a dye manufacturer, conspired with others to "plant" dynamite at Lawrence to cast suspicion upon the striking textile operatives.

The danger of the "plant" was illustrated in the testimony of Josef Asaf, a Syrian painter of Lawrence, in whose home some of the explosive was placed. Asaf said that when he opened the package he thought the sticks might be some new form of paint. He tried to burn a stick and then smelled of the scorched portion. Later on, he showed the sticks to a physician, who told him it was dynamite.

He intended taking it to the police station, and hid it for safe keeping in his bedroom, where it was found later by the police who arrested him.

**T. R. "Extremely Temperate."**  
Marquette, Mich.—Men who have been associated with Colonel Roosevelt in public and private life, who met him on the Nile when he returned from his African hunting trip, and newspaper men who accompanied him on his various political campaigns, testified Thursday in Colonel Theodore Roosevelt's libel suit against George Newett, a newspaper owner of Ishpeming, Mich., that the ex-president not only was not a drunkard, but that he was notably and extremely temperate in the use of intoxicants.

**Allies Must Sign Treaty.**  
London—The growing displeasure in diplomatic circles of the great powers at the attitude of Greece and Serbia found expression here in what practically amounts to an ultimatum which Sir Edward Grey, the British secretary of foreign affairs delivered to the delegates of the belligerents. The communication, which was couched in strong phrases, without ambiguity, made it clear that enough time had been spent in futile discussions of the peace settlement and that the moment had arrived for signing the treaty.

**Coaster Brake Trust Fined.**  
Rochester, N. Y.—Fines aggregating \$81,500 were imposed in the United States district court by Judge John R. Hazel, of Buffalo, in the cases of defendants in the government's action against the so-called "coaster brake trust," for violation of the Sherman law. Six corporations and eight individuals pleaded guilty to charges of conspiring to restrain trade and attempting to monopolize domestic and foreign trade.

**Army Aviator Killed.**  
Montrose, Scotland—Lieutenant Desmond Larthur, of the army flying corps, was killed near here while practicing aeroplane reconnoissances with other officers. He was flying at a height of 3000 feet when the wings of his machine collapsed.

**GRASSHOPPERS MOVE SLOW**  
**Pest in New Mexico Not Likely to Cover Much Ground.**

Clovis, N. M.—The great army of grasshoppers which has invaded New Mexico on the east has reached Elida, Roosevelt county. The army is 20 miles long and four miles deep and the grasshoppers are literally stripping the country bare in their path.

They are moving westward across the central part of the state at the rate of a mile a day.

A mass meeting is to be held here at which funds will be raised and a plan devised for resisting the invading army before they reach Clovis.

Washington, D. C.—The grasshopper invasion of Northeastern Mexico, a telegraphic report of which reached the department of agriculture Wednesday from A. G. Hammer, one of its agents, is not causing alarm among officials here.

Prof. F. M. Webster, in charge of the work of insect investigation, said the pest was not likely to spread over a large territory, as it could be successfully fought because it had not traveled far or done much damage to crops.

The report from Mr. Hammer shows it is the "differential grasshopper," not the fast-moving variety which spread over nearly the entire country in the 80's.

**WILSON'S ATTITUDE IN DOUBT**  
**Dislikes Exemption Clauses in Sunday Civil Bill.**

Washington, D. C.—Whether President Wilson will sign or veto the sundry civil bill with its clause exempting labor unions and farmers' organizations from prosecution under certain funds set aside for the operation of the anti-trust laws still is an open question.

The President sent for Senator Martin, of Virginia, and Representative Fitzgerald, of New York, chairman of the two congressional committees on appropriations, and talked at length with them about the bill. At the conclusion of the conference White House officials were silent. The President was informed that the particular thing that was holding up the bill in conference was a dispute as to an appropriation for managers supervising national soldiers' homes. His visitors said they expected to reach an agreement by the end of the week.

It is considered likely that the President will make known in a few days just what his position will be toward the much talked of exemption clause.

The President has been informed that if he objects to the attaching of legislation to an appropriation bill he could accompany his signature with a memorandum of protest on that point. He likewise has been told that the exemption clause would not affect such substantive law and that prosecutions of any violations of the law by labor unions or by farmers' organizations could still be accomplished through other funds at the disposal of the department of justice.

**TROUBLE IN MEXICO FEARED**  
**Ambassador's Wife Making Hushed Preparations for Flight.**

Mexico City—Considerable alarm was created in the American colony here Wednesday when it became known that Mrs. Henry Lane Wilson, wife of the American ambassador, was making hasty preparations to depart for the United States within a few days.

In some quarters the announcement is construed to mean that Ambassador Wilson has received information of serious impending trouble and that he is taking the opportunity at hand to remove his family from the danger zone. The ambassador himself declined to discuss this matter. At the ambassadorial mansion it was said that Mrs. Wilson was returning home on a visit to friends and relatives.

**Lane Announces Purpose.**  
Washington, D. C.—To make the acquisition of homesteads as easy as possible in strict conformity with the law for bona fide settlers and genuine homesteaders and as difficult as possible for dummy entrymen or speculators is the announced purpose of Secretary Lane in beginning an investigation of the rules and regulations of the land office. A month ago Secretary Lane sent a special representative to South Dakota to investigate the specific charges against county land agents, and the above is the result.

**Cotton Sellers Target.**  
Washington, D. C.—Demand for legal action against those who sold cotton to James A. Patten and others of the "cotton pool," indicted in 1910 for running a corner, was made in the senate Wednesday by Senator Smith, of South Carolina, who said he had been assured that the department of commerce, if the senate would pass a proper resolution, would investigate thoroughly the selling end of the famous pool.

**Taft's Order Attacked.**  
Washington, D. C.—A resolution to abrogate ex-President Taft's order, putting all fourth-class postmasters into the civil service, was introduced by Senator Overman. He declared he had not conferred with President Wilson, or any cabinet officers about it, but believed the spirit of the civil service law had been evaded.

**WOMAN COULD NOT WALK**

**She Was So Ill—Restored to Health by Lydia E. Pinkham's Vegetable Compound.**

Pentwater, Mich.—"A year ago I was very weak and the doctor said I had a serious displacement. I had backache and bearing down pains so bad that I could not sit in a chair or walk across the floor and I was in severe pain all the time. I felt discouraged as I had taken everything I could think of and was no better. I began taking Lydia E. Pinkham's Vegetable Compound and now I am strong and healthy."—Mrs. ALICE DARLING, R.F.D. No. 2, Box 77, Pentwater, Mich.

**Read What Another Woman Says:**  
Peoria, Ill.—"I had such backaches that I could hardly stand on my feet. I would feel like crying out lots of times, and had such a heavy feeling in my right side. I had such terrible dull headaches every day and they would make me feel so drowsy and sleepy all the time, yet I could not sleep at night."

"After I had taken Lydia E. Pinkham's Vegetable Compound a week I began to improve. My backache was less and that heavy feeling in my side went away. I continued to take the Compound and am cured."

"You may publish this if you wish."—Miss CLARA L. GAUWITZ, R.R. No. 4, Box 62, Peoria, Ill.

Such letters prove the value of Lydia E. Pinkham's Vegetable Compound for woman's ills. Why don't you try it?

"Papa," said an inquisitive boy, "don't fishes have legs?" "They do not," answered papa. "Why don't they, papa?" "Because fishes swim and don't require legs." Then he asked, "Papa, ducks have legs, don't they?" "Why, yes, ducks have legs." "Well, ducks swim, don't they?" "Yes." "Then why don't fishes have legs, if ducks do? Or why don't ducks have any legs if fishes don't?" Papa gave up.

**Laying Matting.**  
When laying matting, it is not always necessary to cut it in order to fit corners and alcoves. It may be better to do so in very small spaces, but often molesting the matting is found to be better than cutting. Softened thus, it can then be bent without breaking, and makes a neat, substantial edge.

**UNUSUAL RESOURCE OF BOY**  
**Lad With One Roller Skate Attaches It to Box and Secures Bigger Load of Wood Than Others.**

Small boys were collecting firewood, where it had been thrown out for them, at the side door of a large grocery establishment on upper Broadway. There was something of a rush to see who would get the most, and the proud possessor of one roller skate came out ahead in the scramble, says the New York Sun.

Seizing an orange crate, he strapped his skate to one of the bottom slats and, filling the crate with wood, rolled it away on the four wheels of the skate, while others were left to drag or carry their smaller loads.

**Also Had Something to Praise.**  
The other morning my four-year-old cousin and her five-year-old friend were talking of all the hand-painted china their mothers had. The five-year-old one said: "My mother has a hand-painted sugar bowl and milk pitcher and some plates," and she mentioned several other things. Then my cousin spoke up and said: "Huh! That ain't anything; we got a hand-painted fence back in our yard."—Exchange.

**No Chance for Him.**  
A certain minister having noticed a new attendant for several consecutive Sundays, engaged her in conversation after service. Cordially shaking the young blond by the hand, the reverend gentleman asked her name, address, etc., and concluded by asking if he might call upon her. In a rather broken English and very Swedish intonation came this response: "No, tank you, I have a reglar feller."
