Training the Colt.

Many valuable horses are spoiled by improper or harsh treatment in by improper or harsh treatment in training. A man who is incapable of understanding the disposition of horses is certainly incapable of train-ing them. Two-thirds of the horses that have been called vicious can be managed by proper treatment, says a contributor to Farm and Home.

It is bad policy to train a colt unless he is in the best of spirits. The brain will be more active, therefore the disposition easier to control. On the other hand, if you train a coil while he is thin in flesh, in poor spirits and on light food, as some men do, he will not take notice of objects, and when on good feed later, he is not well trained. Have them in good spirits, give plenty of feed, and use less whip.

Uncle Snooks Puzzled.

"What puzzles me," said Uncle snooks, as he looked up from a book he was consulting, "is this. If a man is standing on the side of a hill or mountain, how is he to settle in his mind whether he is on an acclivity or a declivity? According to my diction-ary here, the former is 'a slope up,' and the latter 'a slope down.' I've never yet seen a slope up that didn't slope down."

One cold night a few years ago, we were all seated at the table eating our dinner. The butter was very hard, and, consequently, remarks were made about it. The next week the weather was very warm and the butter was somewhat soft. Little Billy, six years old, suddenly exclaimed: Little Billy, "Mamma, the butter is easy tonight, isn't it?"

"I wish," said the brown sugar to the sand, "that you'd get out of this. You're always in my weigh!"

Blood Bath Knocks Rheumatism

Remarkable Effects of a Remedy That Actually Irrigates the Entire Blood Supply.

It sounds queer to take a blood bath but that is precisely the effect of a most remarkable remedy known as S. H. S. It has a peculiar action of scaking through the intestines directly into the blood. In a few minutes its influence is at work in every artery, vein and tiny capillary. Nerry membrane, every organ of the body, every enunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the one end of casting out every irritating, every pain-inflicting atom of poison; it dislodges by irrigation all accumulations in the joints, causes acid accrations to d cive, renders them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheu-

atic pains.
And best of all, this remarkable remedy And hest of all, this remarkable remedy is welcome to the weakest atomach. If you have drumsed yourself until your stomach is nearly paralyzed, you will be astenished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure botanical infusion. Is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

The great Swift Laboratory has spent millions of deliars in perfecting, producing and placing in the hands of the public this wonderful remedy. So give your blood a good bath with S. S., for it kneeks the worst forms of rheumatism and gives you freedom to enjoy life.

You can get it at any drug store at 1.00 a bottle. It is a standard remedy, recognized everywhere as the greatest blood antidote ever discovered. If yours is a peculiar case and you desire expert advice, write to The Swift Specific Co., 160 Swift Bidg., Atlanta, Ga.

In the following states the subject is to come up again in the state legislatures: In Iowa, 1916; New Jersey, 1914; New York, 1915; Pennsylvania, 1915. In these states it has been before the legislatures

In Maine and West Virginia the legislatures gave a majority vote to the amendment, but two-thirds was necessary.

Springfield, Ill.-The ballot, with some limitations, was placed in the hands of Illinois women Thursday, so far as the legislature is concerned, the issue now being up to Governor Dunne. The house passed senate bill No. 63, popularly known as the "suffrage bill," which had been previously passed by the state senate. There had been a stormy fight, the suffragists once before during the session having been defeated and winning only after the most strenuous exertion. Submission of the bill to the people is not required.

bill, although provision was made for fighting that battle in another way. The new law provides that women may vote for presidential electors, members of the state board of equalization, clerk of the Appellate court, county collector, county surveyors, members of the board of assessors, members of the board of review, sanitary district trustees and for all officers of cities, villages and towns, except police magistrates, and on all question or propositions submitted to vote by the electors of such municipalities or political divisions of the state.

There are excluded from the list the office of governor, lieutenant governor general, state treasurer, attorney United States senator, representatives in congress, state senators, legislators, circuit, county and probate judges, states' attorneys, sheriffs, coroners, police magistrates and all officers

named in the constitution of Illinois. The effect of the bill will be wide spread, and the women contend that it gives them a political leverage that undoubtedly will result in further extension of the ballot later on, through One of the important functions of the submission of a constitutional

Has Temperament. When a girl is intense that means her mother needn't expect much help

with the housework. **EXPERIENCE** OF MOTHERHOOD

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes 6 once childless there are now children because of the fact that Lydia E. Pink-ham's Vegetable Compound makes women normal, healthy and strong.
