**REMINGTON UMC METALLIC CARTRIDGES**  
Made by the Foremost Ammunition Concern in America

THE biggest name in the ammunition and firearms world today is Remington-UMC. Whether your arm is a Remington or any other standard make, whatever its calibre and the load you need, you want Remington-UMC metallics—not because they are necessarily stamped with the same name as your firearm, but because they give more accurate results.

This Company has been making ammunition for fifty years. We produce metallics for every standard make of arm—and every Remington-UMC cartridge is tested in the arm for which it is made.

There is a dealer in this community who can give you Remington-UMC Metallics for your rifle, your pistol. Find him. Ask him for them. Look for the Red Ball Mark on every box of metallics and shot shells you buy.
