**Cleans Blood
Through Kidneys**
Most Important Function
and One to be Care-
fully Guarded.

The purpose of the kidneys being to
filter the blood the question of treating
kidney weakness should be con-
sidered carefully. Instead of drugs and
readily kidney stimulants the better plan
is to purify the blood with an antidote
such as you get from S. S. S.
It should be remembered that the kid-
neys are made up of a fine net work of
blood vessels, and it is to stimulate the
natural activity of kidney tissue
through this capillary net work that
S. S. S. shows one of its most remarkable
features.

The medicinal value of the components
of S. S. S. are relatively just as vital to
kidney action as the nutrients
derived from grain, meat, fats, sugars,
any other part of our daily food is to
the natural reconstructive requirements
of the tissues. And there is one com-
ponent of S. S. S. which serves the active
purpose of stimulating the cellular tissues
of the kidneys to a healthy and judicious
action of its own essential nutrient.
In cases of rheumatism, cystitis,
gonorrhea, sore throat, huskiness of voice,
neuritis, asthma, and the myriad of
other reflex indications of weak kidney
tissue, first purify your blood with S. S. S.
It will enable the tissues to rebuild
themselves and regain their natural
strength.

You can get S. S. S. at any drug store.
It takes no other so-called blood purifier.
S. S. S. is purely a botanical product,
and you will make a great mistake to
buy some enthusiastic pain oil or mer-
cury, or some other of the old-fashioned
preparations that may do you irreparable
harm. S. S. S. is prepared by The Swift Spe-
cialty Co., 149 Swift Bldg., Atlanta, Ga.,
and it has blood any deep-seated or ob-
stinate blood trouble write to their Med-
ical Department for free advice. It will
write you while to do so.

ARMY FIGHTING MOUNTAIN FIRE

San Francisco Pleasure Resort Swept By Flames.

Mt. Tamalpais Parks and Summer Residences Doomed—Cities In Imminent Danger.

San Francisco, Thursday—Five men
are reported to have been burned to
death on the Larkspur side of Mount
Tamalpais. A correspondent of the
Associated Press talked with men who
said they saw the five carried away on
stretchers toward Mill Valley.
The report that the Mount Tamal-
pais fire had swept into the big red-
wood grove, Muir Woods, was con-
firmed here at midnight. Immediately
a train was assembled and hundreds
of fire fighters were dispatched to join
those now striving to save the big
trees. The great grove is one of the
noted show places of the state.

The women and children of Mill
Valley are standing in terrorized
groups in the street, clutching a few
of their most precious belongings, and
watching the approach down Blythe-
dale Canyon of the Mount Tamalpais
fire. The husbands and fathers, aided
by 2000 men from the army and navy,
are battling bravely to check the
flames. At another point 800 civilians
are fighting flames.

The fire, which had been considered
no longer dangerous early in the day,
was whipped into action by the after-
noon breezes from the sea, and it
raged down the canyon, leaping the
burned-out path of the backfire, until
at 9 o'clock it was reported a mile and
three-quarters of a mile from the
town. The wind slackened towards
night, which gave some hope, but
dwellers in the canyon were ordered to
abandon their homes.

Residents of the whole district spent
a long day of extreme anxiety.
Among the noteworthy properties
threatened was the country estate of
Ralston Lovell White, known as the
"Garden of Allah," which is valued at
\$1,000,000. The estate is in charge
of Mrs. William Tierney, a young
woman whose husband is with the fire-
fighters. She refused to leave her
duties as caretaker.

Three automobiles in the garage
were left to their fate for lack of any-
one to drive them to safety. The val-
uable paintings, tapestry and some of
the furniture, were removed. Much
of the prize poultry had to be aban-
doned.

The fire in Baltimore Canyon also
is reported to have leaped a trench
to halt it. It is said that about 800
civilians are making a desperate stand
against this fire, which threatens the
towns of Corte Madera and Larkspur.
An entirely distinct fire has started
down Redwood Canyon and is charging
on the Muir forest of Sequoias.
Cottages near Muir Woods are burn-
ing.

Homestead Bill Is Reported.
Washington, D. C.—Senator Cham-
berlain, chairman of the public lands
committee, laid before his committee
Senator Borah's bill amending the
three-year homestead law, and after a
brief discussion the bill was unani-
mously favorably reported.

This bill seeks to make the three-
year law a real benefit to homestead-
ers by providing that in lieu of culti-
vating 20 acres of land during the
third year of residence, homesteaders
may show good faith and satisfy the
law by making improvements on their
land amounting to \$1.50 for each acre
entered.

The merit of the bill was quickly
recognized by members of the commit-
tee and no opposition was made to it.

Polar Explorers in Nome.
Nome, Alaska—The Canadian Polar
exploration ship Karluk has arrived
here from Victoria, B. C., with 12 of
the scientists who will go with Vilh-
jalmer Stefansson into the Arctic. A
few hours later the steamship Victoria
arrived with Stefansson, Dr. R. M.
Anderson, his lieutenant, and James
Murray, oceanographer. While here
supplies will be transferred to the
auxiliary boat Alaskan, which will
take the Southern party, under Dr.
Anderson, from Nome to Victoriaville
for scientific research work.

Daniels to Visit Northwest.
Washington, D. C.—Secretary of
the Navy Daniels will visit Portland
July 20, on his way from the Puget
Sound navy yard to San Francisco, and
will return to Portland July 28 on his
way to Spokane. The secretary will
be at Seattle July 16 to 18 and will
inspect the Bremerton navy yard. He
will spend July 19 in Tacoma and July
29 in Spokane.

Hail as Large as Walnuts.
Columbus, O.—A terrific rain and
hail storm swept parts of Columbus
and vicinity Thursday afternoon, do-
ing great damage in the city and coun-
try. Hailstones as large as walnuts
were hoisted up after the storm,
which lasted less than ten minutes.
Fruit trees were stripped bare and
truck farms were shorn of the grow-
ing crops.

Price of Coffee Falling.
New York—There was a break of
fully a half cent in coffee Thursday,
the culmination of heavy selling which
has been in progress for several
months, and which has caused a de-
cline of 5 cents a pound in coffee since
last October.

WOMEN CANNOT BUY LIQUOR

New Law Takes Effect in District of Columbia.

Washington, D. C.—No woman in
Washington is able to buy herself any
sort of intoxicating drink, be it mild
or strong, mixed or straight. For the
first time in history the District of
Columbia, so far as women are con-
cerned, went dry, largely because of
activity of Senator Jones, of Washing-
ton. The Jones-Works liquor bill went
into effect July 1. Under its restric-
tions no liquor can be sold directly to
women in hotels, restaurants, or else-
where. At hotels women with escorts
may have drinks served with their
meals, but not otherwise.

By instituting another filibuster in
the senate Jones fortified his bill to
the extent that he is now, single-hand-
ed, preventing the sale of liquor to
women in restaurants, summer gardens
and similar establishments, and in
these places women are not able to
be served, even when escorted and
when seeking drinks with meals. The
bill provides that no such resort shall
sell to women until it has been exam-
ined by the excise board. The law re-
quires the appointment of a new ex-
cise board, the old one having gone out
of existence June 30, but Senator
Jones is holding up the nominations of
the board recently appointed by the
President. This makes it impossible
at this time to grant special licenses
to restaurants to sell to women under
the same conditions as hotels, and un-
til an excise board is confirmed res-
taurants and summer gardens must
serve only soft drinks to women
patrons.

Senator Jones' filibuster is due to
the fact that one member of the board,
appointed by the President, appeared
before congress in opposition to the
Jones-Works bill. Senator Jones
maintains that a man who publicly op-
posed the bill is not fit to enforce it.

INDIAN PATRIOTISM WANES

Idaho Tribe Sad When Government Forbids Sun Dance.

Pocatello, Idaho—Angered because
orders to stop their annual sun dance
came from Washington, 1000 tribes-
men from the Fort Hall Indian reser-
vation, who had gathered at an Indian
farm ten miles east of here for a four-
day observance of an ancient tribal
custom, drifted back to the reservation
with all patriotism gone from their
hearts.

They planned to hold a Fourth of
July celebration as a wind-up to their
sun dance, but when the Great White
Father at Washington decreed that
they could no longer perform the sun
dance, the fires of patriotism waned.

Only tact and diplomacy on the part
of tribal leaders prevented a demon-
stration when the Washington order
was received.

FRIEDMANN LOSING GROUND

Berlin Medical Society Refuses to Test Tuberculosis Serum.

Berlin—The Berlin medical society
at its regular meeting Saturday re-
jected by an overwhelming majority
the request of Professor Ludwig
Schleich, the assistant of Dr. Friede-
rich F. Friedmann, that the society
appoint a committee of four to test
the Friedmann vaccine for tuberculo-
sis in any way which might appear to
it most advisable.

The decision of the society was
greeted with cries of bravo.
The president of the society, speak-
ing informally later, declared that if
Dr. Friedmann really desired a test he
could have it by placing his remedy at
the disposal of the different hospitals.
This statement was applauded.

IMPERATOR AID TO CHARITY

Money Paid by Sightseers Put to Philanthropic Use.

New York—Mayor Gaynor has re-
ceived a letter from Dr. Carl Bunz,
resident manager of the Hamburg-
American line, asking him to accept
the company's check for \$5000 to be
distributed among the charitable in-
stitutions of Manhattan.
When the steamship Emperor ar-
rived here recently on her maiden trip,
Bunz announced that visitors would be
permitted to inspect the vessel on
payment of 50 cents each, and the
total sum collected would be turned
over to charity. It is in fulfillment
of this promise that the mayor has
been asked to accept the check.

In all, 30,688 paid to inspect the
Emperor and a total of \$15,344 was
collected. The rest of the money has
been divided among several local Ger-
man societies and hospitals.

Hyde and Snyder Must Do Time.

Washington, D. C.—Frederick A.
Hyde and Joost H. Snyder, convicted
here in December, 1908, of land frauds
in California and Oregon, must begin
serving their prison sentences. At-
torney General McReynolds Thursday
afternoon ordered the Supreme court's
mandate handed down to the District
of Columbia courts for enforcement of
the sentence.
Both President Taft and President
Wilson denied clemency. Hyde got two
years and a fine of \$10,000; Snyder
got 14 months and a fine of \$1000.

Quakes Wreck Two Towns.

Douglas, Ariz.—Residents of Guas-
abas and Granados, Sonora, are living
in a tent city. The two towns, locat-
ed 120 miles below the border at this
point, were wrecked totally by earth-
quake shocks occurring at intervals
since May 17. The adobe buildings of
the neighboring towns were razed. It
is estimated that 3000 persons are
residing in tents.

BALKAN ALLIES FIGHT TO DEATH

200,000 Former Friends Now In Deadly Conflict.

Bulgarians Have Advantage—Ser- via Suffers More Than Dur- ing War With Turkey.

London—After ten days of fighting,
more severe and deadly in character
than anything in the last Balkan war,
a little light begins to break on the
hitherto obscure operations. In the
first place, the Serbians have lost
more men than in the whole previous
campaign, and semi-official statements
issued at Belgrade have the appear-
ance of an intention to prepare the
public for news of a disaster.

Desperate fighting, with varying
fortunes, has progressed along the
Vardar and Bregalnitsa rivers, and
seems to be in favor of the Bulgari-
ans.

Important news has been received
of the Bulgarian invasion of Serbia
through Belgradechik, 45 miles north-
east of Nish, Serbia's most important
fortified town. No indication is given
of the strength of the Bulgarian col-
umn at this point, but the Bulgarians
declare they have defeated the Ser-
vians and captured five guns and a
quantity of other war material, and,
by the occupation of the passes, to
have opened the road to Nish.

There is heavy fighting also be-
tween the Serbians and Bulgarians to
the south of Ispid and in the neigh-
borhood of Kotechana. About 200,000 men
are engaged, and the losses on both
sides appear to be terrible.

Bulgaria's strategy appears to be to
hold the Greeks in check, probably
with comparatively small forces, while
she deals with Serbia. This assump-
tion, if correct, would explain the vic-
torious advance of the Greek army.

Unconfirmed reports credits the Bul-
garians with victories near Korili,
giving them the key to Uskup, and
with an outflanking movement from
the south of Tahynso Lake, which
would cut off the Greek retreat.

Saloniki dispatches continue to re-
port Greek victories. The Greeks are
said to have captured 16 guns at Doi-
ran. Evidence of desperate fighting
is found in the arrival of 8000 wound-
ed at Saloniki, taxing the town's ac-
commodations and resources to the ut-
termost.

A conservative estimate of the
killed and wounded in last week's
fighting fixes the number at from 30,-
000 to 40,000. Thousands of destitute
refugees from the scene of the fight-
ing are coming into Saloniki.

The Greeks continue to make whole-
scale charges against the Bulgarians of
burning and pillaging all the villages
they abandon and of committing mur-
ders, mutilation and other horrors.

To Check Foreign Influx.

Washington, D. C.—William B. Wil-
son, secretary of labor, intends to
ask for a thorough revision of the im-
migration laws to prevent the tremen-
dous influx of undesirable foreigners
to this country each year. He is at
present making an exhaustive study of
the problem and his recommendations
will be submitted to President Wilson.

"I have decided," Mr. Wilson told
a reporter, "that the immigration
laws are not sufficiently strong."
"Our first duty is to those who are
in America, native or foreign. The
question naturally follows whether the
tremendous influx of aliens is not in-
jurious to those who are already here.
There is no question that there is
great evil in our immigration system
and it is up to us to correct this."
"Both Democrats and Republicans
and congress will join next year in
putting through a strong immigration
bill."

Miners and Owners Firm.

Charleston, W. Va.—According to
intimations received here, "Fight It
Out" is the slogan of both the coal
operators and striking miners in the
Paint and Cabin creek fields. At a
mass meeting held at Mucklow,
Thomas Kearns, president of District
No. 17, United Mineworkers of Amer-
ica, urged the miners to stand their
ground, and announced that W. L.
Connell, of the Paint Creek Collieries
company, with whom he conferred re-
cently, has refused to make conces-
sions. Thousands of miners are idle
in the two fields.

Mothers Testify in Suit.

Cincinnati—The hearing of evidence
on the application of ice manufactur-
ers against Mayor Hunt, the board of
health and the city of Cincinnati for
an injunction to prevent them from
operating the ice plants seized by the
city as a result of the strike of em-
ployees, was resumed Monday. Several
mothers testified that their babies had
suffered as a result of the lack of ice
in their homes since the strike began.
Judges fixed \$65,000 as the bond that
the city must give as a guarantee
against damaging the seized plants.

Stray Rock Hits Grocer.

Louisville, Ky.—Unconscious and
with his skull crushed, Alfred Atte-
bury, a Louisville grocer, is in a local
hospital, the victim of a peculiar ac-
cident. Attebury was sitting in front
of his store when the wheels of an
automobile, running swiftly along the
street, caught up a stone five inches
in diameter and hurled it against his
head. The doctors believe that Atte-
bury will not recover.

Sometimes children are more observant
than they are credited with being.
Little Rob's mother, for instance, was
telling a visitor how "masterful" an-

in his little oar. "I don't think Mr.
Tate is so awful bossy, mamma," he
remarked, suddenly. "Course he
does a lot of talking, but he never
makes Mrs. Tate do a thing she
doesn't want, I've noticed that."

Criminals Have Low Temperatures.
Cold-bloodedness is a physical char-
acteristic of the habitual criminal and
the temperature of murderers is strik-
ingly below normal, according to sta-
tistics published by the American
Medical association. General physical
degeneracy is found to stigmatize the
criminal. The average convict is
three inches below the normal in stature,
light in weight and with small
chest expansion.

Wonderful Peroration.
A lawyer, more fluent in his speech
than careful in his metaphors, was
once guilty of the following peroration:
"Gentlemen, it will be for you
to say whether this defendant shall be
allowed to come into court with un-
blushing footsteps, with the cloak of
hypocrisy in his mouth, and draw
three bullocks out of my client's pocket
with impunity."

Rearranged.
The choir wished to sing a hymn,
the first verse of which ended: "The
night is falling. Heaven help us as
we're calling." But as they wished
it for morning service, the leader sug-
gested that they change the wording
of it a bit. A young man dutifully
proposed the following amendment:
"The morn is dawning. Heaven help
us as we're yawning."

Jesting and Dancing.
It is good to make a jest, but not to
make a trade of jesting. The earl of

was much delighted to see a gentle-

her. "Pish," said the queen, "it is

She liked it not where it was a master

other performances. The same may we
say of jesting.—Thomas Fuller.
