BEFORE you buy a big game rifle, by all means ask your dealer to show you the Remington Autoloading Rifles. They are five-shot repeaters—operated by the recoil. Always a shot ready for the emergency, for the cripple, for the deer that is getting away, or the charging beast that promises to be troublesome if you don't get him quick. The Remington Autoloading Rifles and Shot-guns are the latest achievement in ninety-six years of producing fine firearms. Remington Arms-Union Metallic Cartridge Co. 299 Broadway New York

"That's the sixth Studebaker we've passed—the only kind to invest in"

"The only kind—because, as I always say, when a man puts money in a thing he wants to know that he's going to get the worth of it out again." "That's plain business as I look at it." "That's why I say the price doesn't tell you anything at all. There's only one thing that talks—except the wagon itself. That's the name of the maker." "When you buy a Studebaker you're buying a vehicle that has behind it and in it sixty years of experience—sixty years of success—and sixty years of reputation for the square deal. That's why a Studebaker always looks good to me." "My father used to say that Studebaker honor was as sure as a United States bank note. He was talking after having used Studebaker vehicles since he was a lad, and he told me his father before him said, 'Be safe—get a Studebaker.'" "Vehicle builders can't hold that sort of reputation now-a-days without delivering the goods. A Studebaker wagon has the best in it. That's why a man gets the most out of it—why it's always an economy." "Dealers may say to you something else is 'just as good.' But when you buy a Studebaker, you're making a safe investment every time." A GOOD FERTILIZER

Attention has recently been called, by the Oregon Agricultural College, to the fact that many farmers who are "so unfortunate as to have hay injured or spoiled by rain are making the mistake of either burning it in the field or allowing it to rot in piles. It is stated that spoiled clover or alfalfa hay is worth \$8.50 to \$10 per ton as fertilizer if evenly spread over the fields and plowed under, and that every ton of hay so worked into the soil is approximately worth four tons of fresh manure. A ton of clover hay contains 40 pounds of nitrogen, 5 pounds of phosphorus and 30 pounds of potash, which, if purchased in the open market would cost the farmer about \$10.50, and as clover and vetch is yielding about 2 1-2 tons per acre this season, the plowing under of the spoiled hay adds a fertilizer value of not less than 25 to each acre.

Figured in Cold Dollars. "The value of human life isn't supposed to be figured in cold dollars," said a builder, "but people don't generally know that in every big building erected in New York the price of human life is a consideration figured in the estimate." "In a building of so many stories and of a certain sort of construction the contractors figure that a few workmen will be killed and there will have to be settlement with the families. Maybe no architects or contractors would admit that this is true, but it's a fact nevertheless."—New York Sun.

Very Democratic. "Is she the right sort to be a congressman's wife?" "Is she? Why, she's even more democratic than he is. She even goes so far as to call socially on the wives of some of her husband's constituents."—St. Louis Republic.

A Hint to the Wise. Madeline—Don't come up to the house tonight, Harold. Harold—Why not, dear? Madeline—Pa had a puncture, cracked cylinder and a bent steering wheel today, and I'm afraid he'll wreak his vengeance on you.—Kansas City Star.

Letting Him Out. "Would you marry a man who has the reputation of being not more than half witted?" "No, but I'll be a sister to you."—Houston Post.
