RINGLING BROS. CIRCUS

Ringling Brothers' circus is attracting unusual interest this season because of its many new features and the new aspect given the show by the addition of the great spectacle "Joan of Arc." The circus will be seen in Portland on August 21 and 22, and this city and the surrounding country will be well represented as it always is when Ringling Brothers are within excursion distance.

There will be a new parade in the forenoon three miles in length. The menagerie is practically twice as big as it was last year and contains many specimens of strange animal life new to American zoos. Audiences will be entertained by 375 of the greatest of Europe's circus artists. Chief among the stars who are exploiting novelties and sensational acts are: The Saxon Trio of the world's strongest men, whose wonderful feats of strength have startled Europe. No act like this has ever been seen in America. Close upon it in importance are the Balkani family of sensational riders, the Janowsky family of novelty acrobats, the three Jahns, ladder-balancing sensationalists, the Lorbeer troupe, who juggle human beings; the Portia quartette of women contortionists, the Maryland

family of springboard gymnasts, the Alpine family of wire performers, Capt. Huling's two troupes of performing seals and sealions, the Schuman performing horses, the three herds of best trained elephants on earth, Mijares, the Mexican wizard of the high wire, the Klarkonian aerialists and the fifty funniest clowns on earth.

The great feature of the show is of course the newly added spectacle "Joan of Arc," with a trainload of special scenery, costumes and stage properties, and a cast of 1,200 characters. There is also a ballet of 300 dancing girls, a chorus of 400 voices and an orchestra of 100 soloists. This is the greatest dramatic and spectacular production ever presented in America, enacted on a specially built stage bigger than a hundred ordinary theatres. It is made portable so that it can be erected in the main tent each morning. This great entertainment is given as an introductory to the regular circus performance and entails no extra charge of admission.

"Joan of Arc" tells a wonderful story from French history in a thrilling and dramatic way and with the wonderful illusion of tons of special scenery and stage devices. In the great battle scene the audience is held spellbound by the realism of the scene, while the enactment of the coronation of Charles VII is beyond question the most sumptuous and inspiring stage picture ever seen.
