

The Remington Cube finds the Autoloader always ready

REMINGTON UMC

AUTOLOADING SHOTGUNS

ANY way you look at it, the Autoloader is the highest development in modern shotgun design. It puts five loads at your disposal by merely pressing the trigger. It puts the recoil to useful work—to eject the empty and slip in the fresh shell. It saves the gunner's shoulder—rids his sport of annoyances—increases his shooting average. Your danger is that in your enthusiasm over the autoloading principle, you may forget to insist on getting the finest embodiment of that principle—the Remington Autoloading Shotgun.

The peculiar advantages of the Remington are too many to detail here. What you want to do is to get one of the Remington dealers in this section to demonstrate them to you on the gun itself.

Remington Arms-Union Metallic Cartridge Co.
299 Broadway New York

GOBLE

The residents in the Neer City school district met on Tuesday, the 28th, and organized a club to be known as the Parent and Teacher club of said district. Mrs. J. W. Armstrong was elected president and Mrs. Walter Hunter, Secretary. The meetings will be held on the third Friday of each month, and will meet at the home of Mrs. Blake on Friday, the 21st of November at 2 p. m. All interested in the school and social life of this locality are invited to be present. Mrs. Cooper, Mrs. Mae Links and

Mrs. Metcalf have charge of the program on that date. Miss Phalon, our present teacher, is going to start industrial work in the school. This is a step in the right direction and ought to be encouraged. The women of this precinct, (Goble) are certainly going to take advantage of suffrage at our election Nov. 4. All we hear nowadays is "You bet, I am going to vote" and then a very animated and generally intelligent discussion of different questions to be voted on takes place.
