Geo. F. Robertson

To the voters and tax payers of St. Helens:

I desire at this time, to say a word in connection with my nomination for the office of mayor of St. Helens. This surely came to me as a great surprise, without my knowledge, and certainly without my solicitation; not being present at the time. However, coming as it did, being the will and wish of over fifty of our representative citizens and taxpayers in convention assembled, that I serve, and after several days of careful consideration, and deliberation, and yet with some hesitancy, I have decided to accept and allow my name to go on the ballot for your careful consideration.

As the confidence to preside as mayor of this city has, if elected, been placed in me, will say that confidence will not be betrayed.

If elected, I shall endeavor to give the city a strict business administration.

If elected, I shall guard the interests of the property owners, and taxpayers with a jealous care, that the expense of city government may be reduced to a minimum, thereby if possible, reduce taxation.

A rigid curfew law is sadly needed in this city and I will see that such a law is strictly enforced.

If elected, I shall at all times offer, and hold out every reasonable inducement to industries and business enterprises, seeking location.

And it shall be my aim, and I shall use every effort to see that no VIOLENT legislation be had that would effect the rights, or curtail the privilege of any industry, from the smallest to the largest.

On the other hand, no legislation

would receive my endorsement that would in any way savor of class legislation or favoritism of any individual, company or corporation.

Companies, corporations and capital, have the same rights and privileges as do individuals, and should receive the same legislative protection; yet, they ought not to have, nor should they ask for more.

So, summarizing my policy, I would be progressive and not retroactive, would be enterprising, yet judicious, would be philanthropic, yet cautious; last but not least, I would be patriotic and true to my fellow citizens, true to our city, to state and nation, to the end that my labor might not be in vain, but be the means of bettering the conditions, if possible, of my fellow citizens. Pd Ad. GEO. F. ROBERTSON.

-LISTENING-

With ear to the ground the youthful present is heard in the unceasing march of the ever-approaching future.

The step of one is faltering and uncertain, weak and insecure, as of a traveler overcome with journey but half complete. Nightly pleasures and passing party were his guide books.

The tread of another is brisk, firm, vigorous and very secure, as of a trained captain of industry, whose forces in control and making decisions with back or soul. He impressed his time and is now studying the road of success in
