Sunday's Results		
At Vaughn Street—Baby Beavers	9	0
At Woodburn—Woodburn	3	0
At St. Helens—Kirkpatrick	13	2
At Woodland—Bradford	9	0

More in sorrow than in anger we refer to the fact that our usual reliable Salveson in Sunday's game with the hard-hitting Kirkpatrick did not to much extent resemble a hero. About the only thing he did was a windup, and the Kirkpatrick seemed to know this right from the start, as they lost no time in putting up on him. Edwards, the first to get up, struck out and Salvy, being instant for this breach of etiquette, accommodatingly gave Chick the necessary transportation to first base. Nelson got a scratch and when McDonald heaved Salvy Baker went to third while Nelson stumbled safely to the second station. Sherrett's single and Dixon's double put both Baker and Nelson in the home rubber. Three hits, three scores. There was nothing doing in the first stanza for the White Sox as Telford had them coming his way, so Salvy again faced those Kirkpatrick. Sanquist, first man to get a triple and then followed in good succession a choice assortment of singles and doubles, just enough to balk up another five runs before side could be retired. Ballagh led on Virg Stevens and he succeeded in holding the Kirks scoreless except the fifth inning, when hits piled with numerous errors gave visitors six runs with as many as the home team.

The only interesting feature of the game was the courtesy of the home team in allowing Pop Ballagh their chance and Pop did real well, hitting seven put outs at first with a single skip. The box score follows:

### GUN CLUB HAS GOOD SHOOT

### St. Helens Mist Offers Trophy to Club.

Sutherland killed a hundred straight. The shooting fads did say: Oh cruel man—but wait, The birds were made of clay.

The St. Helens Gun Club had a very successful shoot last Sunday morning and hung up a high average, as the following score will show:

	Birds.	Broke.	Avg.
Ballagh	50	32	64
Copeland	50	35	76
Burgess	50	36	72
George	50	42	84
Sutherland	50	42	84
Tabor	50	37	74
Johnson	50	37	74
Devera	50	34	68
Lundgren	50	34	68
Totals	450	332	73.8

This is the best average yet made, but a little more practice will be necessary in order to win from the expert Astoria Club, as they have some 95 per cent shots.

The Mist has offered a handsome silver cup as a prize for the best shot between teams from Rainier and St. Helens. The details of the method of awarding it will be worked out by the club members, and notice of the shoot given in the next issue of the Mist.

### QUARRY RESUMES OPERATIONS

After a period of idleness caused by the high water conditions, the St. Helens quarry has resumed operations. The water is still too high to permit the operation of their regular loading device, so Superintendent Avery has secured, for temporary use, a combination clam shell digger-loader and is loading barges with crushed rock. Mr. Avery has also made arrangements for putting on a small force of block makers to get out quite a number of the stone paving blocks. Indications are that both the plant operatives and the stone cutters will be steadily employed during the remainder of the summer.

A revival of the block cutting in St. Helens would add much to the prosperity of the city.

### SUPREME LODGE MEETS

The meeting of the Supreme lodge of the United States Knights of Pythias will be held in Portland August 1 to 10. The great parade will be held on Tuesday, the first day of the session. There will be bands present from nearly every state. The uniform rank will form one of the leading features, as this body is the uniform rank of K. of P. is the only fraternity order to receive a charter by special act of congress.

### PAINFUL ACCIDENT

Robert Walter, whose home is in Warren, met with a very painful accident at the shipyard Wednesday afternoon. He was assisting in unloading some timbers from a truck, when one of the pieces slipped and struck him sideways at the knee, wrenching it very severely. He was taken that evening to the Portland hospital. It will be some time before he will be able to work again.

a little more lucky and connected safely with the pellet exactly five times, and in Sunday's game with the Kirkpatrick, after Telford let down, we accumulated seven. During these matinees we have faced the enemy 82 times. Thirteen hits give us the team batting average of .158.

Mr. Jupe Pluvius butted in for a few moments, but when he saw Pop Ballagh on first, and at the earnest solicitation of Father Time, he called a halt to his program. Ballagh appreciated this courtesy.

McDonald has recovered his batting eye. After going hitless for six games, he braced up and smashed out a nice single.

MOTOR VESSEL CITY OF PORTLAND Largest motor vessel built in the United States; built at St. Helens and now loading a St. Helens cargo for foreign ports.

### PROMINENT NEW YORKER HERE

### Heavily Interested in St. Helens Property.

G. N. Hauptman of Pomona, N. Y., arrived in St. Helens Thursday and is registered at the St. Helens hotel. This is Mr. Hauptman's first visit to St. Helens in several years. He speaks in an encouraging way of business conditions in the east and is satisfied that the election of Hughes will do much towards adding to the prosperity of the entire country. Mr. Hauptman is a heavy stockholder in the St. Helens Lumber Company and is making an inspection of that company's properties. He will be in St. Helens several days. H. H. Baker of Dunkirk, N. Y., accompanies him on this trip.

### PICNIC BREAKFAST BY HIMALAYA CLUB

The Himalaya Club enjoyed a picnic breakfast at 6 o'clock Wednesday morning at the edge of the woods near the lower stone quarry. The girls built a fire, made coffee, fried ham and eggs and ate in regular picnic style. Those present were Miss Clara Kettel, Miss Gertrude Phillips, Miss Bessie Battan, Miss Annie Quick, Miss Alice Quick, Miss Jessie Stokes, Miss Helen Larsen, and Miss Josephine Moorhead guest.

### THE FOURTEENTH SENATORIAL DISTRICT IS COMPOSED OF CLACKAMAS, COLUMBIA AND MULTNOMAH COUNTIES, WHICH HAS A JOINT SENATOR, G. M. McBRIDE, BUT HE WILL SOON RESIGN BECAUSE HE IS GOING TO RUN FOR THE COUNTY JUDGESHIP OF MULTNOMAH.

The Fourteenth Senatorial District is composed of Clackamas, Columbia and Multnomah counties, which has a joint senator, G. M. McBride, but he will soon resign because he is going to run for the county judgeship of Multnomah. The committeemen from the three counties will decide who will be the candidate, and it is a safe bet such candidate will be from Multnomah county, for the district was formed by the gerrymander of some legislature which Multnomah county controlled. Ancient history tells us Columbia county once had a senator in the Oregon senate, Judge Moore, about thirty years ago. Perhaps Clackamas county has had a joint senator since that time, but it does not matter to them for they have one senator all of their own in addition to their (?) joint senator. But Columbia county, with its 12,000 people, its assessed valuation of \$17,000,000 and its thousands of acres of fertile soil, must be content to be in this joint (or Multnomah) district. It is not right; the legislature should "hook" us on to Clatsop county, where we would have at least more than one break in thirty years. We will never get it being the appendage to Multnomah's kite. If the committeemen of Clackamas can be convinced of this, it might be possible that some good citizen of either Columbia or Clackamas may be senator to succeed McBride, although all of the woods in the Multnomah forests are now full of candidates. John McCue, E. E. Covert, Thos. Cleeton, Elmer Avidon, Jack Day, and numerous others are spoken of, but we haven't heard of a Columbia county man. Our committeemen should take note of this and bring it to the attention of the Clackamas delegation, and, out of fairness, Clackamas should stand by Columbia for they have one senator all by themselves. The people of the county will watch with interest how our committeemen stand, whether their small force of 21 men will capitulate to Multnomah's 320, or will they, like our troopers at Carrizal, combat with the superior (numerically) force.

### SUIT FILED FOR \$10,000 DAMAGES

### Henry Peterson, Longshoreman, Sues for Big Money.

Henry Peterson, a longshoreman, through his attorney Glen R. Metsker, has filed a suit against H. P. McCormick, the St. Helens Lumber Co., E. E. Quick, city recorder; H. J. Southard, city marshal; John Doe Prince and Richard Roe Prince (true names unknown) for \$10,000. In his complaint the plaintiff sets forth that he was arrested by persons who, according to chapter 10 of the city charter, had no authority to make such arrest; that the appointment of such marshals was illegal and that his arrest was the result of an unlawful conspiracy entered into between each of the above mentioned defendants. Plaintiff further sets forth that such arrest was made on the public street of the city of St. Helens and that without cause he was locked in the city jail for several hours and by reason of said arrest and imprisonment he was greatly humiliated and his reputation and standing in the community injured, and claims damages by reason thereof to the extent of \$5,000. He also asks an additional \$5,000 as punitive damages against the defendants. At the time of going to press we cannot ascertain the time set for the hearing of the case.

### TELEPHONE OFFICIALS VISIT ST. HELENS

W. B. Moore, plant superintendent; J. R. Davies, superintendent of construction, and Omar C. Spencer, general attorney, of the Pacific States Telephone & Telegraph Company, were St. Helens visitors on Tuesday. Mr. Moore states that his company contemplates and is making plans for the immediate improvement of the city and country lines in this vicinity. The line south of Scappoose is being removed from the railroad right of way and will follow the county highway. Mr. Spencer, the attorney for the company, is a son of one of Columbia county's old pioneers, I. P. Spencer of Vernonia, and, while a resident of Portland, still has much interest in his native county.

### CITY OF PORTLAND NOW RECEIVING CARGO

The City of Portland is now docked at the St. Helens Lumber Company's wharves and is receiving cargo for delivery in Australia. It is understood that the stevedoring concern who has the contract for loading her has signed up the longshoremen's agreement and union men will work cargo aboard the vessel, so no delay is expected. The date for sailing has not yet been set, but all possible dispatch will be given the vessel. The City of Portland came down from the shipyard at noon Thursday and created much favorable comment on the way she handled and her general appearance. The big vessel towers above the mill dock and looks as though she would carry more than the two million feet of lumber which is expected to place aboard her.

### HERO LAID TO REST

The body of Lieut. Rodney Adair, the first of Oregon's sons to lose their lives in the present Mexican trouble, reached Portland Tuesday and was laid to rest in Riverview cemetery with military and civic honors, which the dead hero deserved. A firing squad fired three volleys over his grave and the bugler sounded "Taps" as Adair's body was consigned to a resting place in his native state.

The big lemon which has been growing on the tree of Mrs. H. Morgus and which is on display in the show window of the Hat Shop, was taken from the tree the other day. It weighs 18 ounces and measures 13 inches around the short way, and 14 1/2 inches the long way. It is a monster and more than twice the size of those shipped in. There was another lemon on the tree but it burst, supposed to be caused by atmospheric conditions.

### ST. HELENS WILL AID IN RELIEF WORK

### ARE YOU PATRIOTIC?

Subscriptions Acknowledged and Published by the Mist.

WIFE OF MEMBER OF MILITIA AT FRONT IS ANXIOUS FOR SEWING  
The wife of one of the members of the National Guard, who has been called to the front, is very desirous of securing sewing. Anyone who can give her employment may call Sellwood 797.—Oregon Journal, 7-11.

The Mist is going to be of some aid to those patriotic women of the Daughters of the American Revolution who are working to aid the needy families of our boys who are now at the front. The Mist will be receiving headquarters for St. Helens and vicinity for any contributions towards this cause. All contributions will be acknowledged, published and sent to D. A. R. headquarters, 616 Journal Building, Portland, Oregon. Though having but a few minutes in which to call attention to this worthy cause, the response was very liberal, and when this is brought to the attention of our hundreds of readers the Mist looks for contributions to pour in. The following is the roll of honor for this week, and as others come in they will be added to the list. Make your check payable to D. A. R. committee, and send it to the Mist.

### THE RAINIER CHAUTAUQUA

The Rainier Chautauqua closed this week after a very successful season. This is the second year for this enterprise and the bustling business men and women of our sister city certainly deserve congratulation for their efforts.

The program was up to the standard and the attractions were equal to those of the larger places. Those who attended from this place are loud in their praises and regret that they could not enjoy the entire program.

### WILL TAKE LONG BICYCLE TRIP

Mason Dillard and Bob Dixon, who have been spending some time at Seaside, write their parents that they intend leaving the seaside resort today on their bicycles and they intend to ride over the Highway all of the distance from Seaside to St. Helens. When the boys went to Seaside they took the boat to Astoria and then rode to Seaside, a distance of 18 miles, in less than 1 1/2 hours. When they reach St. Helens they will probably be able to give expert opinion on our road investment of \$300,000.
