WEST ST. HELENS

Mr. and Mrs. J. Dell and Mr. and Mrs. Wm. Goodman spent Thursday and Friday sightseeing in Portland.
Mrs. Dr. R. Cole and Mrs. Dr. Fuller celebrated the anniversary of their birth on Wednesday. These young folks are quite shy about telling the number of anniversaries that they have had. If you wish to know, the correspondent suggests that you bribe them by taking them to the picture show or ice cream parlor. The good ladies were born on the same day, month and year, hence their union celebration. Their many friends wish them long life and continued happiness and prosperity.
Messrs. C. and F. White and their families motored to Portland Monday, returning in the evening.

DEER ISLAND

The taxpayers of Road District No. 3 were well pleased to have the members of the county court in the vicinity, traveling over the roads, for three successive days during the past week. These officials are showing the proper spirit in manifesting a deep interest and concern in the public welfare.

A most enjoyable evening was spent in games and music. Dalnty refreshments were served at a late hour, after which the merry throng broke up.
Wm. Francis and two little daughters, left last week for Nebraska.
Mr. Lewis and son of St. Helens, are preparing for a big blast close to the residence of A. Adams. It is expected that this blast will loosen about 4,000 cubic yards of rock, which will supply about 5,000 cubic yards of crushed rock. This quantity will probably suffice in making the intended necessary improvements on the highway from Tide creek to the McBride fill. In preparing the holes for the blast Mr. Lewis discovered deposits of copper.
Mr. and Mrs. Keelan were called to Portland last Friday to the bedside of their son, Eugene, who underwent an operation for appendicitis Friday morning. Leon Smith, an old resident of Deer Island, but of recent years a resident of Happy Hollow, is in our midst as busy as when he was a young man. He, with his team of trusties, can manipulate loads of such enormity as to stagger the elephants of Siam.
From all appearances there is to be a "real" harvest in Deer Island this fall. The Laube Brothers have purchased a new reaper and binder, which is the second the neighborhood can boast of. They themselves will harvest 30 acres of grain, while many others in the community have considerable.
The farmers here seem to have been more secure during the rainy weather of the last week than many of those in surrounding districts, as most of the hay in this neighborhood had been safely stored away before the wet weather. Is it that our farmers are more thrifty or that Dame Fortune happened to be visiting us at this time?
Deer Island is taking on the appearance of a real progressive little town. One of the latest innovations is a barber shop. It appears that very soon another chair will be required as the present one is being occupied all day and a great part of the night.
Those who have cultivated an optimistic outlook on life have found the excessive rain to be a great blessing, inasmuch as it will result in a second crop of hay, the prospects of which are very bright at the present time.

A recipe for making home made loganberry wine without using alcohol has been asked for. By following these directions an excellent wine can be made out of ripe loganberries: Take good ripe loganberries, put into clean cask or other vessel, let stand for twenty-four hours. Now take a clean rubber hose and siphon it off into another vessel. Let stand until settled again, draw off again as before with hose or spigot, leaving a settling in the bottom of the vessel. Wood or stone vessel should be used. Add one quart of water to each gallon of juice. Then add three pounds of sugar to every gallon and stir it until sugar is thoroughly dissolved. Now put into a good clean keg and place in cellar, in a rather warm place, leaving bung out, but keep covered with gauze to keep insects and dirt out. Keep keg full with juice kept in another vessel until it is through working. Bung up tight until spring. Be sure to place the keg where you will not have to lift it as this would affect the color. Then bottle. Lay the bottles on their sides in a cool, dark place.
Don't forget that the St. Helens dairy wants to please you. Phone 107.
