The Sewing Club met with Mrs. A. Beegle last week. There were not many present but those who attended had a lovely time. Mrs. Beegle served a most appetizing lunch which everyone enjoyed. The club will meet with Mrs. Jacobson September the 28th.

FIRE WEATHER WARNINGS

Fair Friday and probably Saturday; temperatures near normal; light northeast to east winds. Don't burn slashings before October 1 without a permit from a fire warden.

The above bulletin is furnished the Mist by E. A. Beals of the United States weather bureau.

In an effort to have Columbia divorced from the joint (? Multnomah) senatorial district, the Mist is going to write each candidate for the legislature asking his support towards giving Columbia county justice. The Rainier Review has come to the aid of the Mist in this campaign, as have numerous influential citizens of the county. We will accomplish that for which we are working because we are in the right, notwithstanding Jack Day's remark: "We have the votes and what are you going to do about it." It is time to cut Day and Amidon out. They are no credit to this county, nor have they any interest in it.

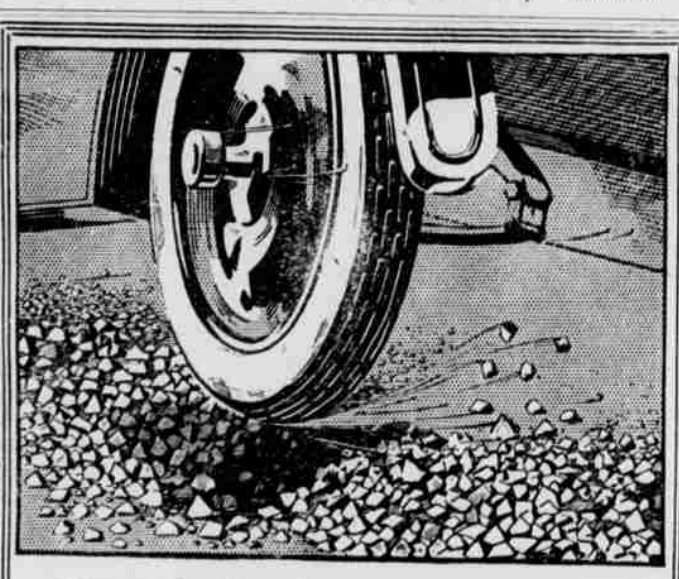
MASON, EHRMAN & CO., PORTLAND OREGON



Cuts! Gashes! Exposed Fabric! Blow-outs!

Prodium Process Rubber minimizes this trouble

Prodium Process Rubber (the new tread used exclusively on Republic tires) is so tough that even newly crushed rock or sharp stones doesn't cut and gash it.

It wears down as evenly and smoothly as a piece of fine steel. After miles of service it looks like new. It keeps water away from the fabric, prevents rotting of the carcass of the tire, and makes premature blow-outs practically a thing of the past.

Get a sample strip of Prodium Process Rubber. Try to break it. It's the toughest, stongest tread stock ever used on a tire.
