

Saves Eggs

Royal Baking Powder makes it possible to produce appetizing and wholesome cakes, muffins, cornbread, etc., with fewer eggs than are usually required.

In many recipes the number of eggs may be reduced and excellent results obtained by adding an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following tested recipe is a practical illustration:

SPONGE CAKE

1 cup sugar
1/2 cup water
3 eggs
2 teaspoons Royal Baking Powder
1 cup flour
1 teaspoon salt
1/2 cup cold water
1 teaspoon flavoring

DIRECTIONS:—Dissolve sugar and water until syrupy, add eggs, beating until the mixture is thick. Beat together three times the flour, salt and baking powder; beat yolks of eggs until thick; add a little at a time flour mixture and egg yolks alternately to white of egg mixture, stirring after each addition. Add 1/2 cup cold water and flavoring. Mix lightly and bake in moderate oven one hour.

The old method called for 6 eggs and no baking powder
