

RAILROAD ADOPTS TICKET DELIVERY

A new step in railroad service has been taken by the Southern Pacific Company in the establishment in the larger cities along the coast of a ticket delivery system.

The plan has just been put in operation in San Francisco and Los Angeles and met with such a hearty welcome that Chas. S. Fee, passenger traffic manager, will include it in the service system now being extended over the company's lines.

"Telephone tickets" will be supplemented by a bureau of general information and service whereby patrons of the Southern Pacific may utilize every resource at the company's disposal.

BIGGEST WASTE IS IN FRUIT

"The biggest waste in food products in Oregon is in fruit," says Prof. H. P. Barss, plant pathologist of the O. A. C. experiment station.

"The cause of the waste," says he, "is chiefly worms, scab and scale. It may be reduced very materially by proper spraying. The first spraying of the most susceptible varieties can be done at once in most parts, if the weather permits. The station would like to assist the growers in making this the one year for clean fruit without waste. Send to the college for copies of the bulletin on spraying."
