The spirit of thrift and economy seems to have taken a firm hold on the housewives of this community. On every side you hear of canning, drying and otherwise taking care of everything possible. Even the wind-fall apples are being dried, whereas other years they have mostly been allowed to go to waste. Of course, the same spirit of thrift is everywhere and perhaps this great world calamity will be the means of changing the most wasteful nation in the world into a thrifty and saving nation.

WARREN

Our high school is having very irregular attendance this month on account of the scarcity of help, but most of the boys will be back next week and begin their bit in making the student doings this year better than ever.
At the last meeting of the active members of the student body, Martha Ryser and Hildur Peterson were elected as correspondents to the best paper in Columbia county, the St.

Boke left Wednesday morning with the last quota for American Lake. Warren hopes to receive visits often from these boys before they take the trip across the big pond.
Fifteen new active members of the student body were initiated last meeting, the initiating program consisting of making a three-minute talk before that august body. Some were terribly afflicted with paralysis of the tongue and will be given another opportunity next Friday. More power to the tongue. We would rather they were afflicted with verbosity.
The people of this town and community have been so busy since the fair, getting in the corn and spuds, that they haven't had time to tell us who is sick, whether son John got

married last week as per arrangement, or if that new silo Hank was building is finished. However, everybody is busy and we understand the crops are a little better here than anywhere else in the county. So there.
