

STANDARD FIRE FINDER ADOPTED

The Osborne fire finder has been adopted by the Forest Service as standard equipment for lookout stations on the National Forests of the country...

More than 350 of these fire finders are now in use and it is planned eventually to equip all the more important lookout points...

In addition to its use by the Federal Forest Service, the fire finder is used by the Canadian forest service and a number of associations of private timber land owners...

Foresters in various parts of the world have shown their interest in the instrument by writing to the District Forester for information about it...

The state fair board cannot borrow money from banks with which to pay for construction of the second unit of the new coliseum at the state fair grounds...
