MEDICAL ALUMNI TO NATION'S AID

University of Oregon, Eugene—The university of Oregon school of medicine has given twenty-five per cent of its entire number of graduates to the nation's service in the present war, according to figures supplied by Dr. Frederick H. Thompson, '07, at the annual alumni banquet. Of a total of 565 graduates, including those of the Willamette University school of medicine, who were taken in as alumni of Oregon when the two medical schools merged five years ago, 143 are now in the service. Thirty-nine of the instruction staff are numbered among the medical officers of army and navy. Sixteen of the twenty-one graduates this year have already enlisted in the navy.

Sour Stomach.

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion.

HOUSEHOLD HINTS

Always cook slow food on ironing days.

Cabbage should always be boiled in two waters.

Nuts may sometimes take the place of meat, but should be very carefully chewed.

Loose chamolais gloves are excellent to wear when gardening or doing any dirty work.

To save the paint in a partially emptied can, pour on a thick cover of melted paraffin.

If you have to pound meat to make it tender, pound a little flour into it—this saves the juice.

If food lacks flavor it will not be properly digested. Therefore, have your food attractive.

Olive oil should be regularly used as an article of diet to make bacon and butter less necessary.

It will add considerably to the wearing qualities of stockings if they are washed before being worn.

When screws and nails are difficult to remove, try letting kerosene soak into the wood around them.

To heat plates immerse them in the oven as is usual. The hot water method is not so liable to crack them.

In making casserole combination do not forget to put the lighter vegetables with the lighter meats.

For that obstinate stain on your white buckskin shoes try fine sandpaper. Rub the spot lightly with it.

Asparagus that is green from tip to end of the stalk is better than the white stalks because there is no waste.

You can keep cheese fresh if you wrap it in a cloth wrung out of vinegar and keep it in a paper bag in a cold place.

Always put a full ruffle on bottom of kitchen apron to protect the bottom of the dress from drops which might find a landing place there.

A pinch of sugar dropped into the tea when it is set to steep will cause the leaves to open in about half the time usually required for steeping.

When making a thickening for creams, gravies or soups, put the flour or water into bowl, stir with a spoon and mix with the egg beater for a few seconds.

AMERICAN ARTILLERY TO BE MOTORIZED

Motorization of field artillery will be carried to a greater extent in the American army than in any other army engaged in the war. Not only will a far greater amount of motor equipment be provided in proportion to the strength of the army but it will be used for work where armies now in the field depend solely upon horse power and man power.

The ordnance department has succeeded in developing such types of tractors that, exclusive of the heaviest field artillery mounted on railroad carriages, all American artillery will be motorized, with the exception of some of the three inch gun batteries. The problem of motorization of field artillery is a difficult one, which explains why it has not been carried to a greater extent than has been the case with the armies that have been fighting in Europe for the last three years.

The possible output of tractors for the transport of field artillery in the United States is practically unlimited, whereas the supply of horses is at present limited and is becoming more so each month.

A NEGRO PREACHER SELLS LIBERTY BONDS

At a Liberty Bond meeting of the colored population of Quebec, Louisiana, attended by Scott Wallace of Lilbourn, Missouri, April 23, 1918, the following address is said to have been made by the negro parson:

"Niggers! I cums befo' you to nite to get you to buy Liberty Bonds. My text am from two-eyed chapter an' one-eyed John! Hinninburg an' de Kiser am a scratchin' whur dey won't git a bug! They think dey car cum over 'No Man's Lan' like de debil cum over de Chilliko mountains in a ballon! An' de smoke rollin' from his eyes like de smoke from a tra kill! But dem Allys am rollin' de fire an' smoke over dem Huns. In sech a way dey will hab to crawlfish back to Germany or go to hell. So you niggers jest got to buy a bon'! If you don't, when you die an' get to de golden gate, Saint Peter will be standin' dar wid a baseball bat, an' he will beat all de wool off you niggers' hails. An' yo' hails will be as naked as a Hun's back. Den yo' will hab to go to Germany or to hell."

Then a negro woman said: "Parson what am a Hun? Sum kind of a human?"

"No, sister," said the parson, "deys no human 'bout 'em, dey is sum kind of mean race dat gambles, cusses, drinks, smokes, chews, an' lies, snores an' trys to suck everybody's eggs."

The negroes bought a bond and sang a song: "Hab Uncle Sammy make a gun for us, an' we'll tie de Kiser's helmet to 'Hinninburger's mad dog bitten Militarism's bulldog's tail."
