**Cold Knees and Feet**

A tall, powerful young soldier in the uniform of a Scottish Highlander boarded a street car in Toronto the other day and excited considerable admiration, especially among the women. He sat in a seat opposite a young man and his sweetheart. Though her escort was very attentive to her, the girl could not resist casting sly glances at the soldier in the picturesque Scotch uniform, whose bare knees shone just below his kilts. The young man noticed the girl's glances and clearly showed his annoyance.

"I think that uniform is most ridiculous," he said in sarcastic tones. "That fellow's knees look as if they were frozen."

The Scotchman heard the remark, and, glancing contemptuously at the young fellow's civilian clothes, he replied:

"Well, young man, it is a sure thing my knees aren't as cold as your feet."

**CLATSKANIE**

The school was again closed the first of the week, owing to an increasing number of cases of influenza which kept many pupils at home, many more remaining away for fear of contagion. Should conditions improve it will reopen the Monday following Christmas.

Dr. W. W. Youngson was down from Portland on Tuesday, spending the day with Rev. S. Darlow Johnson. He came for the purpose of conducting the quarterly conference for the year at the local Methodist church, but owing to many of the members being confined to their homes on account of the influenza the meeting could not be held. The same conditions prevented the conference being held in Rainier the preceding night also.

Mr. and Mrs. Paul Salmie received a telegram from the war department notifying them that their son, Albert, had been killed in action with the American forces overseas on November 9th. Young Salmie leaves two sisters and one brother besides his parents, to mourn his death, as well as many young friends and neighbors who grieve over the sad news and extend their heartfelt sympathy to the bereaved family. Albert was the first young man from Kerry to be killed in battle. The flags will be held at half mast for a week in his honor.

The many friends of Dave McDonald who was for 12 years a resident of this city, during which time he was proprietor of the Grand Central hotel, will be pleased to know of his success in a similar business enterprise in Melson, a new town situated in the northern part of Washington. The town has an elevation of some 4000 feet and is a shipping point for grain and cattle. It is the best town in the county in which it is located and is lively and enterprising. Mr. and Mrs. McDonald are making a great success in the hotel business, their establishment gaining quite a reputation "all down the line" as the boys say.

The G. A. R. and W. R. C. enjoyed one of their popular good times on Saturday last, meeting in time for dinner, which was served at the noon hour. Both the post and corps had a birthday to celebrate, so the occasion was made a joint one, thereby adding to the pleasure of the day. Comrade Wilson confessed to another milestone in life's journey, being passed, and Mrs. Laswell, of the W. R. C., pleaded guilty to the same charge. Food regulations being a little less restricted a good, old-time banquet was served, the manner in which it was disposed of being proof of its quality. A beautiful birthday cake was contributed for this occasion by Mrs. Dora Puzy, daughter of Comrade Wilson.

**WAR TAXES UNTIL 1925**

America will be paying war taxes until 1925, says the Kansas City Star.

Treasury plans show that the heavy burden of taxation must continue at least six years more. The end of actual fighting has cut the 1918 cost by six billion dollars, Secretary McAdoo announced, but immediate war expenses will continue to come. It is for those that the nation will have to provide funds, according to officials.

Facing the treasury for the present fiscal year were expenditures of 18 billion dollars; for the fiscal year ending June, 1920, five billion dollars and for the next four years the government expense will range around eight and a half billion dollars.

After January 1, 1925, expenditures should settle down to approximately two billion dollars a year officials estimate. This figure, however, will depend somewhat on amortization plans developed to pay off the great bond issues which mature after 1930.

**Makes Him Homesick**

"Shut that door!" yelled the rough man. "Where were you raised, in a barn?" The man addressed meekly and silently complied, but the speaker looking at him a moment later observed that he was in tears. Going over to his victim he apologized. "Oh, come," he said, soothingly, "you shouldn't take it to heart because I asked if you were raised in a barn." "That's it, that's it," sobbed the other man. "I was raised in a barn and it makes me homesick every time I hear an ass bray."—Boston Transcript.

The annual report of Josephus Daniels, secretary of the navy, declares 924,578 American troops were transported overseas in United States vessels and conveyed by United States war ships without the loss of a single transport on the east bound voyage. Three American troop ships were sunk on return voyage. The navy lost three fighting vessels, while three other vessels that were torpedoed reached port and were repaired and again put in service.
