WARREN

The Grange Co-operative Warehouse association have unloaded the carload of barley and the cost to the members was \$51 per ton or \$2.94 per sack, as against \$3.30, the local price, saving the members \$1.26 on every 80 pounds. The association with careful business management will be a great boon to the farmers. A carload of hay is expected to arrive shortly and sufficient clover seed to supply the needs of the district is on the way. This is the first organization of its kind to be founded and managed by the farmers and is proving a decided success.

Mr. and Mrs. F. M. Hoyt and Mr. and Mrs. Nels Jensen composed a house party at the residence of their son and daughter, Mr. and Mrs. P. A. Hoyt, on Sunday.

County Judge W. J. Fullerton of St. Helens, was a caller on friends at Warren on Sunday.

A large number of the men of Warren, who have been employed at the shipyards, have returned to farming, after an absence of over a year. Leroy and Alvin Larson will aid their father, A. L., in clearing land and farming; W. N. Roberts has bought a heavy team and will improve his place this year; Lew Snider has used about all the powder that Oscar Erickson and Watts & Price have and the stumps on his land are pretty nearly eradicated; the Olson boys (Nels and Pete) have spent much time and done much improvement on their farms; Gust Isaacson has cleared a goodly amount of his farm; Johnson brothers are improving the ground recently purchased near the residence of K. F. Larson. A general improvement in all ranches is noticeable and much work will be done this year.

65TH CONGRESS EXPENDS SIXTY BILLION

The 65th congress died Tuesday. It leaves to history a record of three sessions, two of them remarkable for their legislative accomplishments and the third for its lack of accomplishment.

The 65th will be known in American history as the \$60,000,000,000 congress. Its three sessions appropriated that amount. This breaks all American records and practically all world records for a single congress.

The congress was divided into three sessions and these marked three distinct phases of activity.

The first was the war making session. It began April 2, 1917 and ended 188 days later, October 6th.

The second was the war winning session. It was the longest since the American congress was held, lasting 354 days, from December 3, 1917 to November 21, 1918.

The third was the readjustment session, lasting from December 1918, until last Tuesday.
