

WILSON MAY HAVE TO GIVE UP GIFTS

And Josephus Daniels May Not be Permitted to Become Knight

President Wilson may find himself forbidden to accept gifts from foreign kings. He may have to give up these he is already reported to have received from European governments.

Aristocratic Titles Sought.

Senator Gore issued this statement: "It has been admitted with befitting fanfare that this war has been waged in behalf of world democracy."

Amendment in 1809 Failed. "In 1809 and 1810 Congress came to regard the constitutional provision as too lax and sought to remedy it by submitting a constitutional amendment prohibiting any citizen from accepting any title of nobility or honor either with or without the consent of Congress."

th Congress appointed a committee to investigate the matter. This amendment is still pending before the states, and is still subject to ratification. It seems to me that its ratification would be a fitting celebration to the triumph of the worldwide democracy.

They opposed amendment referred to by Senator Gore says: "If any citizen of the United States shall accept, claim, receive or retain any title of nobility or honor, or shall without the consent of Congress accept and retain any present, pension, office or emolument of any kind whatever from any emperor, king, prince or foreign power, such person shall cease to be a citizen of the United States and shall be incapable of holding any office of trust or profit under them or either of them."

Archealogical Casualties. Since landing on the Archangel front last September the Americans have suffered 528 casualties. Of these 186 were fatalities, there having died of disease or been killed nine officers and 187 men. The men wounded consist of twelve officers and 320 men.
