FREE TIMBER FOR CONSTRUCTION WORK

Acting District Forester Munger, the forest service announces recently approved a permit granting free to the Alaskan Engineering commission about four million feet of timber on the Chugach National Forest, along the right of way of the Alaskan Northern railroad, which the commission is building. This timber will be used for piling, telephone poles, railroad ties and as general construction lumber. Ever since the railroad was started the forest service has under a special provision of law granted timber free for this government railroad, and this permit has the effect of extending this privilege to cover more timber and additional time.

The Best Plaster.

A piece of flannel dampened with Chamberlain's Liniment and bound on over the seat of pain is often more effectual for a lame back than a plaster and does not cost anything like as much.
