Vernonia is a busy place these days. The surveyors for the new railroad which is to come through our little city and continue up Rock Creek, are here in numbers and making all possible haste to get the survey completed so that construction work can be started.

An important road which has recently been improved is the Haycock road from the Natal bridge several miles westward. Several families live on this road and until recently have not been able to travel the road except in good weather. Commissioner Judson Weed first came to their rescue by having the Natal bridge built, and then the road followed. For forty years the residents on the west side of the river were compelled to ford the Nehalem, which during the winter months, was deep and dangerous, and the bridge filled a long felt need. It is hoped that the county court will make further progress on this road which the old settlers have patiently waited for during the past 40 years.

Work on the highway has been progressing nicely and much pavement has been laid between Deer Island and Goble. If the present rate of work is kept up, it will be only a short time before the entire distance is paved.

The strike of the Timberworkers at the Columbia Timber company is still on, though Superintendent Withrow states he has 50 or 60 men at work doing needed repair work and extensions of the road. Just when the camp will resume operation is not known.

At the Pomeroy cattle sale recently held at Scappoose, several of our enterprising cattle raisers bought thoroughbred stock. The Anliker Brothers bought three fine cows; E. P. Koble purchased two and Albert Heid invested in one. Goble will soon be second to none when it comes to fine cattle.
