Dollars and Cents.

Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much

shortened by taking Chamberlain's Cough Remedy and proper care of yourself. In fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months.

ITS insole was cut from paper—very likely the counters are paper, and also several lifts of the heel are paper. Such shoes, when wet, won't hold the stitching—their outsoles come off, the counters break down, heels become spongy, and the whole shoe ill-shaped.

These things are used as substitutes for leather in the making of some shoes used because they are cheaper, and they are nearly always hidden where the buyer cannot see or detect them.

Don't be persuaded to buy poor shoes in order to save money. Poor shoes are the most expensive in the long run.
