TRENHOLM

F. F. Tatro has been troubled with lumbago, but is still able to be about. Stop, look and listen! We have one of the best scenic driveways in the county. Try it for results. Clarence Fowler has remained at home the past few weeks due to sickness. A soft blanket covered the ground to a depth of four or five inches Wednesday. Mrs. F. F. Tatro has been on the sick list since last Friday, but is improving somewhat at this writing. Mrs. Satavia and son are making rapid improvements on their little farm near our city limits. It certainly will be difficult to secure feed for the stock if it continues much longer. We have maintained our standard of 100 per cent in all relief drives to date. We are always ready to help a good cause along. We have raised our quota of \$25. Grain crops are being more specialized on than ever before in this section and will be the principal crop, wheat predominating. A number of farmers have planted crimson clover for the first time and its success or failure is keenly watched. A great deal of opposition to the proposed visit of the degree team of the Evening Star Grange for the 17th of April is being shown by the members of the local grange. Not on account of any antipathy to the visitors but because of the inade-

quate accommodations for their entertainment by the hall not being properly equipped as to water and other necessities. In all probability the affair will be cancelled.

ACME QUALITY HOUSE PAINT

Look at the eaves of your house, there around the rain-spout—look at those shutters and window-sills. They should be protected at once by Acme Quality House Paint. It is cheaper to paint than to repair. Save the surface and you save all. Decay starts at the surface. So should protection. You insure your house against fire. What about decay? Take out a little paint insurance. Have your painter provide you with Acme Quality paint insurance. He can get it for you here.

The New Comfort Talking Machine

A HIGH CLASS, FIRST QUALITY MACHINE AT A POPULAR PRICE.

We Believe This Machine Is Not Excelled By Any Machine On The Market, No Matter What May Be The Price

The NEW COMFORT TALKING MACHINE reproduces any make of disc record exactly as well as the best standard talking machine or phonograph on the market. Without change of equipment, but simply by turning the sound box slightly for the vertical and lateral cut records, one can play Victor, Columbia, Edison, Pathe, and all other kinds of disc records. This machine gives one wider range of reproduction than is possible with machines sold at a much higher price.

The Reproducing Features of the New Comfort Talking Machine are unexcelled. It ranks foremost among the world's greatest inventions, performing, as it does, the living reproduction of the human voice, and of any collection of sounds. The New Comfort renders the soft vibrations of the violin, the sweet tones of the clarinet, and the melody of the orchestra.

The tone modifier makes it easily adapted to any purpose. You can play it in your home at any time of day or night without disturbing your neighbors and without losing any of the quality of the music. You can modify the tone so that it can be heard distinctly in any part of a large hall. This modifier is operated from the outside while the machine is playing.

The New Comfort Talking Machine is as good as any machine made and is a great deal better than all machines which fall to come up to the standard. Wherever it has been installed it has been universally endorsed and approved.
