The New Comfort Talking Machine

A HIGH CLASS, FIRST QUALITY MACHINE AT A POPULAR PRICE.

We Believe This Machine Is Not Excelled By Any Machine On The Market, No Matter What May Be The Price

The NEW COMFORT TALKING MACHINE reproduces any make of disc record exactly as well as the best standard talking machine or phonograph on the market. Without change of equipment, but simply by turning the sound box slightly for the vertical and lateral cut records, one can play Victor, Columbia, Edison, Pathe, and all other kinds of disc records. This machine gives one wider range of reproduction than is possible with machines sold at a much higher price.

The Reproducing Features of the New Comfort Talking Machine are unexcelled. It ranks foremost among the world's greatest inventions, performing, as it does, the living reproduction of the human voice, and of any collection of sounds. The New Comfort renders the soft vibrations of the violin, the swee tones of the clarinet, and the melody of the orchstra.

The tone modifier makes it easily adapted to any purpose. You can play it in your home at any time of day or night without disturbing your neighbors and without losing any of the quality of the music. You can modify the tone so that it can be heard distinctly in any part of a large hall. This modifier is operated from the outside while the machine is playing.

The New Comfort Talking Machine is as good as any machine made and is a great deal better than all machines which fail to come up to the standard. Wherever it has been installed it has been universally endorsed and approved.
