COUNCIL ABOUT QUIT BUSINESS

The city council has apparently quit functioning as a legally constituted body—at least as far as regular or special meetings go. May 31st being a holiday and also regular council meeting night no meeting was held. Last Monday no quorum was present, the mayor and Councilmen Dixon and Larabee being the only members on the job. An adjournment was taken to Wednesday night when the mayor and Councilman Dixon were again ready for business, together with Councilman O'Connor. Two absentees made another no quorum meeting.

WILL PICTURE A REAL BEAR FIGHT

Manager East of the Liberty counts the day fortunate when he was able to book the photoplay "The Courage of Marge O'Doon" by James Oliver Curwood earlier than he anticipated being able to secure it. The picture will appear on the same date it will be shown in the Liberty at Portland. In this play James Oliver Curwood is crowning himself with greater laurels than he did in his great success "Back to God's Country," and those who saw this picture well know the great triumph he scored in the silent drama. In "The Courage of Marge O'Doon," among other thrilling scenes, is one of a real wild and untamed bear fight, which was taken by an intrepid cameraman in the wilds of the north woods. This thriller will appear at the Liberty... and to miss it is to regret it.

YOUNG MAN KILLED IN LOGGING CAMP

Roy Bilderback, a young man seventeen years of age, was accidentally killed at the Sunnyside camp on Monday. A heavy log being pulled in by a line broke down a small tree which in falling struck the young

SAVE YOUR ROOF--

Stop The Leaks

If your roof leaks, or is an old one and you figure on putting on new roofing paper or shingles, see us before you do so, for we can save the old roof.

ARCOTOP will save you the cost of a new roof by making the old one watertight and serviceable and will do so at a cost so low that you will wonder why some one never thought of it before.

ARCOTOP is a heavy bodied compound, re-enforced with an especially ground asbestos fibre, producing a tough, durable and lasting blanket over the surface of your roof—an impregnable strata of water-proofing gum, equal to ten coats of the heaviest paint ever made. ARCOTOP is elastic and will not run. It will not check, crack or peel. It prevents rust, rot and decay.

ARCO SEALIT stops the leaks instantly. You can apply ARCO SEALIT in the midst of a drenching rain—it sticks to a wet surface the same as a dry one. An Arco Sealit patch will last a life time. It will not run in the hottest weather, it will not split and crack even on the coldest of days.

ARCO SEALIT will stop leaks in basement walls; repair tin that is too rusty to solder. Can be used for relining worn out gutters. Will stop the leaks in all kinds of roofs; will join broken glass in skylights, stop the leaks in tanks and silos.

You can use every ounce of ARCO SEALIT—it never dries hard in the package.

FOR SHINGLE AND WOOD ROOFS

Try ARCOLASTIC. A tough, durable, water-proofing, preservative paint.
