Mrs. A. Anderson was taken to a Portland hospital and an examination under an X-ray given to determine the nature of her illness. No conclusion has yet been arrived at. The dedication of the Swedish

Baptist church on Sunday was a red letter day to the members of that congregation here. About 20 people attended from Portland, among them being some of Portland's financiers. Nearly \$400.00 was subscribed by those present which will completely wipe out the indebtedness against the property. Absolute satisfaction and commendation was expressed at the success of the finances under the supervision of Rev. Bjorkquist who had done so much in so short a period. The visiting clergymen who took part in the exercises were Rev. A. C. Anderson of Everett, Wash., N. A. Lindholm of Boring, Ore., A. Anderson of Sherry Grove, Ore., and Sholander, of Portland, who commended the resident pastor and the local congregation. A beautiful free dinner was served to all visitors, consisting of over 300. The grange hall was kindly donated by the grange for the occasion and a splendid time was had. The choir from the Portland church furnished music which was highly appreciated. Hereafter services will be held every Sunday at 3 p. m. A Sunday school will be organized next Sunday at 2 p. m. and a general invitation is extended to all children to be present. The services of the Sunday school will be practically all in English. It is only a few weeks since the building and grounds were bought from Morris Bros. The building formerly was used and owned by the Methodist congregation and since the present owners have had it a great many improvements have been carried out.

Mr. and Mrs. H. R. Smith are now living in Trenholm, having moved from their respective domiciles three miles west of Trenholm. On the account of Mr. Smith's poor health it was necessary for them to move nearer the postoffice. They are old settlers of this vicinity and are widely known.

The annual school meeting was held June 20th and 21st. It was as exciting as a baseball game. Mrs. Whittebell was pitcher. She pitched one bad ball. Mr. Whittebell, being short stop, seemed to keep one foot on the ground. The umpire (Mr. Griffith), was constantly up in the air. Mr. Tatrow made a home run and got in as a director. Mr. C. Smith came in second, while Kromroy fanned out, making two fouls. Eversaul was catcher; he caught everything that came his way. Mr. Foulter was first batter and played remarkably well. Mr. Serafine was second batter, and made an out for Griffith on the "Schoolhouse Extension" idea.

The score was 5 to 7 in Tatrow's favor, while Smith's team came in second. Two fouls were made by Kromroy. Mrs. Satva, Mrs. Smith, Mrs. Foulter, Mrs. Kromroy, Mrs. Griffith, Mrs. Serafine and Mrs. Winberg were enthusiastic fans.

YANKTON

Misses Brown and McCallister are spending a few days visiting Mrs. Moyer.

An error was made in the church announcement of last week's Mist. It should have read "Sunday School every Sunday morning at 10:30, instead of every other Sunday."

The annual strawberry festival of the Yankton grange will be held on Saturday, June 26th. Those who can, are requested to bring a small amount of cream. The berries and cake will be furnished by the grange.

The farmers living south of the Yankton road are greatly annoyed by trespassers on their land, though they have "trespasser" signs posted in all conspicuous places. It is, indeed, very annoying to have people run over your land, drive stock over it, use profane language in your presence, and conduct themselves in a generally disorderly manner. Our people have been putting up with these things for many years, and patience is ceasing to be a virtue.

The Yankton school meeting which was held June 21, transacted considerable business. Rudolph Kappeler was elected director to serve three years and Ray Tarbell clerk to serve one year. The question of providing a water system for the school was discussed to some extent. A suggestion was made that the school might be able to secure water from the St. Helens system, but the suggestion did not meet with the approval of a few of those present. Another plan was to install a system that would cost about \$800, and use water from the spring on the old Hyde farm. Although this water is not fit for drinking purposes at times, the proposition seemed to meet with the approval of the meeting. Mr. Ray Tarbell offered to donate \$100 and keep the system in repair for one year, if given the privilege of using the water on his farm. It was finally decided to leave the question of providing water to the directors, or if the directors wished, they could call another meeting and allow the people residing within the school district to decide it.

Mr. and Mrs. C. F. Walker of Schofield, Ore., announce the marriage of their daughter, Margaret J., to Mr. Fred Rabinisky on Wednesday, June 16th. Invitations have been issued for a reception, in the Artisan hall, Saturday evening, June 26, South Scappoose.

Our bank news for this week is that work has been started on the remodeling of the room where the meat market was installed. Also the 104 new safety lock boxes have arrived, and the bank has also ordered from San Francisco an electric alarm system to install in the vault. This will entail ten miles of wire in the vault, so constructed that it would be impossible to get through the door, or cement without setting off two rapid fire guns outside the vault. The guns can be heard two and one-half miles. The officers and directors are surely doing their best for the protection of their patrons.

The funeral of Alvan Trachsel was held in the Congregational church Sunday afternoon, Rev. Pederson of Portland officiating. Mr. Trachsel was manager of the Kelmere Lake dairy farm, owned by Honeyman Bros. of Portland. Thursday afternoon he went out to the meadows on horse back for the cattle. It is thought that while attempting to cross a bridge that is at present under water, he was thrown from his horse and drowned. The horse returned late in the evening riders. Mr. Trachsel was 29 years old and is survived by two brothers and an uncle in America, two brothers, two sisters and a mother in Switzerland. The community extends their sympathy to the family.

The council met Friday night of last week and several standard committees were appointed. E. Wist and D. W. Price were appointed to assist Mr. Ridgeway of Portland in the drafting of our charter. Water commission: Geo. Grant, E. Wist and Charles Wickstrom. Those who are depending on city water know the demand of the water supply. Also a city water plug is very handy in case of fire. Think about it. The lighting committee: E. Wist, C. Wickstrom and D. Price. Street and sidewalk, M. Grevell, D. Price. Keep in mind these committees and express to them your ideas, talk, write, over, agitate it and when the final time arrive to get these things, we will get the best for our use and for our money.

Quite an interest was shown in the attendance at the school meeting last Monday. About 60 were present. Mrs. Gerlach was unanimously re-elected clerk and Niblock likewise director. Niblock feels complimented being re-elected for a term of three years by unanimous vote and rather surprised after a year of so many ups and downs and things going wrong but that also happens in other districts we note. Fortunately the superintendency isn't a lifetime
