

REVENUE OFFICIALS
AFTER TAX LAXITY

The following statement is issued by Collector of Internal Revenue, Milton A. Miller:

"In this, as in every other section of the country, there will be conducted during the next two months an extensive tax drive for the collection of delinquent sales and other miscellaneous taxes, such as the so-called luxury tax, the soft drink tax, the manufacturer's tax, the tax on jewelry and works of art, and the tax on toilet articles and proprietary medicines. Reports of laxity on the part of dealers and other persons responsible for the return and collection of these taxes have reached the Bureau of Internal Revenue from many sources.

"To remedy this condition, a large force of revenue officers will be put in the field, and it is expected to result in the collection of millions of dollars in delinquent taxes.

"Information from the Sales Tax Unit of the Bureau of Internal Revenue is that many dealers in soft drinks and ice cream are either keeping no record of the amount of tax collections from such sales, or that the record is insufficient or incorrect.

"Special attention will be directed to the collection of this tax as well as to the tax on toilet articles and proprietary medicines. Through the failure of retailers to collect in full the tax of 1 cent for each 25 cents or fraction thereof the amount for which toilet articles and proprietary medicines are sold, it is estimated the government is losing several million dollars annually. The tax is collected by means of stamps ranging from 1 to 40 cents, which the law provides shall be affixed by the dealer, and cancelled.

"It is the intention to conduct a thorough and effective campaign as possible in such a way as to bring to justice willful violators, and cause no embarrassment to merchants and business men who honestly are endeavoring to comply with the revenue laws."

The only wool warehouse system of any magnitude west of Chicago is located in Oregon.

Oregon cheese sells at a premium in the eastern markets. As a coffee roasting center Portland is the second city on the coast.

One-third of all the undeveloped waterpower in the United States is in the Columbia river basin.

A quarter of a million dollars per annum is being spent in advertising dehydrated fruits and vegetables in this state.

Insist on Genuine Ford Parts

Imitation "Ford" parts are being sold by many mail-order houses, down-town stores and garages to unsuspecting Ford owners as "Ford" parts. But they are not Genuine Ford parts made by the Ford Motor Company. They are not even made from the same grade of steel, or under the same formulas used by the Ford Motor Company. They are counterfeit parts. Tests have shown them to break when the genuine Ford parts didn't even bend, and they generally are from thirty-five to one hundred per cent lower in quality.

The Authorized Ford Dealer is your protection. As such, we handle nothing but the Genuine Ford parts. They are made from the famous Ford Vanadium Steel and each part—according to its use—is heat-treated in or Ford truck.

Our stock of parts is complete. And our Ford garage and Ford mechanics are at your service at all times. Drive in when replacements or repairs for your Ford car may be necessary. Save your car and also your money.

FIELDHOUSE MOTOR COMPANY
