Summer Complaint in Children
There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell of Butler, Tenn., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose."

Delay means decay
paint right away with...
FULLER PAINT

THE life, the value, the beauty of your home, depend on the care you give it. Weather-beaten and warped siding, cracks and open joints are forerunners of decay. Many property owners neglect to look for such signs, judging their houses and buildings by general appearances only. It is good business to make regular inspection of your property, and to use paint of good quality, which is the surest preventive of decay. Through the varying conditions of weather in all their extremes, FULLER Paint has proved both its preserving and beautifying qualities—a Pacific Coast Product for Pacific Coast requirements. 71 years of paint manufacturing experience are back of every brushful of FULLER Paint.
