FARMERS NEED NEWSPAPER AD SERVICE

Produce Could be Marketed through Community Press

Farmers could market at \$1000 worth of farm produce either goes to waste or as common stuff while high class specialties, said the state agricultural college members of the State association at Astoria, Aug.

Farmers need this service, the editors need the advertising, the speaker "It would add not less than \$10 to the average farm, and benefit the community by supplying the best produce in the most efficient manner possible."

It is shown that as many as 10,000 cars, long and short, with a number of handlings, five and six, and often a few speculators between the Oregon and the Oregon consumers. This ties up much of the cars and some good produce deterioration of commercial contributes to industrial

were urged to go after the order to help the farmer, the best advantage. Since the newspaper serves 250,000 would advertise \$50,000 worth of stuff annually.

SHERWIN-WILLIAMS HOUSE PAINT SWP

How SWP cuts painting cost

The only way to buy paint economically is to forget gallons and figure costs by area covered and years of life. SWP covers one-third more area than paints which are cheaper per gallon. It lasts twice as long without repainting, so requires half the material and costs half the labor price (for painting and repainting).

See price per gallon means nothing. Area covered, weather resistance, and years of life are the real things that determine price economy. On test basis SWP is the cheapest paint you can buy. SWP has been the leading prepared house paint for half a century. You will find a complete line of it at our store. Let us figure with you on your house-painting.

AUBURN Beauty-SIX

Quality Goes Clear Through

On long, hard hills and through heavy going, the Auburn exerts an eager, even-pulling power. It is smooth and quiet in performance and it wrings the last bit of mileage from each drop of gasoline.

The Auburn is a car that earns your good will through its good performance.

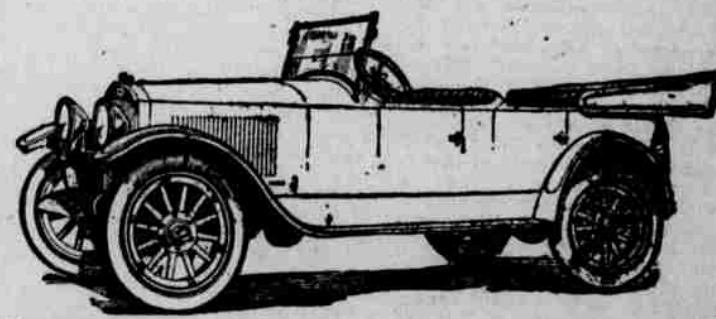

It is a very easy-riding car. It does not bump you and jar you on bad roads as many cars do.

It hangs closely to the road bed even when traveling at high speed.

And its average mileage per gallon of gas, quart of oil, and set of tires is distinctly high.
