For a Persistent Cough

Some years ago H. P. Burbage, a student at law in Greenville, S. C., had been troubled for a long while with a persistent cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption. Having seen Chamberlain's Cough Remedy advertised he concluded to try it. "I soon felt a remarkable change and after using two bottles of the small size was permanently cured."

# Payrolls and Prosperity

Oregon needs more and larger payrolls. Prosperity is a concrete condition, not an abstract thought. It is created by the opportunity for work, the investment of money in new and enlargement of old projects, the development of trade, the meeting of producer and consumer, the exchange of labor for purchasing power.

The Pacific Telephone and Telegraph Company, representing a payroll of approximately \$3,000,000 per year in Oregon, has reached a point beyond which it cannot go with its present income. It has asked for higher rates which will enable it to maintain its service, meet its payroll obligations and earn a reasonable return upon its investment in Oregon. If it obtains this it can carry on its construction program, offer more work in Oregon, enlarge its payrolls and take its proper part in the progress of this state. If it cannot secure adequate rates, it) must limit its expansion in every way, abandon its plans for extensions and lay off its construction crews.

The rates asked for will not work a hardship upon any individual; they represent but a small increase per station over present rates, but in the aggregate would permit the telephone company to continue to fully serve the public, carry out its plans for the development of Oregon, and do its part in creating and maintaining the prosperity which is essential to the

Adequate service is dependent upon adequate rates.
