### Voices by Radio.

Voice transmission by radio waves has passed beyond the experimental The United States bureau of standards says that it is now actually possible to telephone by wireless over as great a distance as by the ordinary wire.

This highest scientific authority expresses a belief that before very long communication across the At lantic by radiophone will be estab-lished on a commercial basis. When that has been accomplished, a per son in New York or Philadelphia will be able at any time to call up and converse with a friend or busi ness acquaintance in London or Paris by paying a stated and moder-ate rate per five minutes of talk. It also states that the quality of the transmitted speech is as perfect as that which comes over the ordi-
