ST. HELENS GARAGE TO CHANGE HANDS
The St. Helens Garage will change hands on or about September 1st. H. M. Hare of San Diego, California, an expert machanic, will be in charge of the shop. He invites the people of St. Helens and vicinity to come to the garage and see a Studebaker Six auto which is in a deplorable condition. After he has thoroughly overhauled the car he would be glad to have you examine it and decide if his work does not justify your patronage instead of sending the work to out of town garages. Mr. Hare will bring with him an AMBU IGNITION TESTER and he knows how to use it. Be sure and come and give the demonstration car a thorough examination before it is overhauled and see what Mr. Hare can do for you. It makes no difference what make of car you have, none are too large or too small. Satisfaction is his motto and a guarantee goes with his work. Advt.

Tremendously Important Facts
UNEMPLOYMENT, lowering of value of farm and manufactured products, loss of business confidence, high taxes, high rentals, these and many other conditions have brought about situations that vitally effect everyone. It might be called a "Profitless Age" through which we are passing. The greatest care in the handling of family and individual finance should be used now. 20th Century methods are individual. They are alone in the fact that the 20th Century is the only institution of any importance in this section that have priced all their goods on an F.O.B. store basis. No guessing is ever done about adding cost of delivery service or charge service. Each and every dollar spent at these stores buys merchandise. This, in our mind, is the fair way to cash buyers.
