A touring car is not quite as expensive as a sedan and will stand up to almost any amount of abuse.

O

The sedan is the ideal car for your city and country business and pleasure trips and rides like a much heavier car over rough roads.

R

Either car is less expensive to operate than any other make of car made. Quick to get away. Quick to get back.

D

The Fordson tractor is an all purpose machine. Pulls your stumps, plows and dresses your land, pumps your water, saws your wood and will almost button the wife's dress down the back.

S

A farmer should have both a Ford and a Fordson. The business man is almost out of date without the handy little Ford to save him time and money.
