PEOPLE'S MARKET

WE INVITE AN INSPECTION OF GOODS AND COMPARISON OF PRICES.

CONCERNING BOYS

A father, selecting clothes from which to have a suit made for himself, asked his son how he liked the goods. The boy examined the back of the fabric. "My boy," said the father, "that is not the right side of the cloth." "I know," replied the boy, "but that is the side which I will have to wear when your clothes are made over for me."

That was in the days of old. Since then boys have come into their own. They no longer wear the clothes of their elders.

"Papa's pants fit Willie now," was a popular song a generation ago, but no longer has any significance.

CHILDREN'S CLOTHING

There is as much care and attention devoted to children's clothing nowadays as to that of men, and it is a poor boy indeed, who cannot wear a stylish, well-made and perfectly fitting suit.

In point of fact, a boy's garment requires proportionately more care and greater strength than that of an adult, for the strain is greater. A boy is a delicate animal. His games and rough and tumble pastimes mean ruin to everything but the best. To be satisfactory a boy's garments must be boy-proof.

That's the kind of goods we sell, made well, strong, durable, perfect fitting and above all, at a price that is reasonable.

You can buy from us in perfect confidence. We have selected only wear-resisting fabrics of the most approved colors. We are building for the future and we want our business to grow on the foundation of perfect confidence and the best of service.
