TWELFTH PACIFIC LOGGING CONGRESS

The program of the twelfth annual session of the Pacific Logging Congress, to be held in San Francisco October 26-29, has been issued by Geo. M. Corwell of Portland, secretary. The sessions will be held at the Palace Hotel, and promise to be largely attended. The program is very extensive, covering a broad range of logging engineering problems and topics of interest to loggers and lumbermen. Various phases of logging activities will be illuminated by stereopticon and moving pictures. The convention will conclude with an excursion to the redwood district in Northern California, where the sawmill and logging operations of the Union Lumber Co. at Fort Bragg will be visited. A one and one-half fare, on the certificate plan, has been granted by the railroads.

A number of loggers from Oregon will attend the congress.

SCHOOL ATTENDANCE IN OREGON

According to the census of 1920 there are 99,562 children 7 to 13 years of age in the state of Oregon and of this number 94,312, or 94.7 per cent, were reported as attending school. In 1910 the percentage attending school was 90.3, thus indicating an improvement as regards school attendance between 1910 and 1920. Of the children 14 to 15 years of age in 1920, 96.6 per cent were attending school and of those 16 to 17 years of age 59.7 per cent.

The percentage of children attending schools was higher in the cities than in the country districts, the percentage for children in the urban population 7 to 13 years of age being 96.1, while in the rural population it was 93.7. "Urban," according to the census definition includes all towns or cities and other incorporated places of 2,500 population or more.

CAN GERMANY GAMBLE BACK TO PROSPERITY?

Germany is actually trying to gamble her way back to prosperity—a new experiment in economic rehabilitation. Most of her gold reserves that the Allies did not get in reparation payments are passing into American vaults. There is nothing behind the Germany paper mark today but faith in the country's ability to win out in foreign trade markets. Meanwhile, German financiers look upon the wild excesses of speculation on the Berlin Bourse as a good thing because there is a chance of converting paper marks into a kind of national security maturing gradually up to a gold basis as the years roll by and the country recovers fully.

The Germans believe they can turn this trick because practically the whole nation is gambling in stocks on a scale that makes our Bulls and Bears look like tamed animals in a cage. Well, when an entire people of 75,000,000 individuals believe in a thing as with a single mind, the thing is more than half-way done, observes Sugarman's Indicator.

UNCLE SAM CHECKS UP \$500,000,000 GOLD IMPORTS

Our gold imports have now passed the \$500,000,000 mark since January 1, 1921. The official figures for the eight months' period ending August 31st show the enormous total of \$496,451,732 in American vaults from overseas.

Never before has there been such a flood tide of gold bullion rolling in upon us, and never before has the United States occupied its present dominant position as the creditor nation of all the world. On this foundation of solid gold our next era of prosperity will rest, and already now easier credit facilities and easier money rates are paving the way for a gradually advancing state of general business activity.

During the last eleven days of the golden tide before September 1st the shipments of bullion and specie rose to \$21,607,559, of which European nations supplied more than three-fourths. Among the European contributors to our half billion gold imports Great Britain leads with \$143,108,454, followed by France with \$126,529,603 for the eight months' period, writes Sugarman's Indicator.

RECIPES

Cheese Jelly Salad

One-half cup grated cheese.
One tablespoon gelatin.
One cup whipped cream.
Salt and pepper to taste.

Mix the cheese with the whipped cream, season to taste with salt and pepper, and add to the gelatin dissolved in a scant cup of water. This may be moulded in either large or small molds. When the jelly begins to harden, cover with grated cheese. The jelly should be served on a lettuce leaf, preferably with a cream or French dressing to which a little grated cheese has been added.

Squabs With Brown Sauce
Clean two squabs, then split them open. Place them on a thickly-buttered plate, sprinkle with salt and pepper, cover with another buttered plate and steam until tender. Garnish with olives. Serve hot with brown sauce.

Fried Rice

Boiled rice, white and with each grain separate, is the basis for the fried rice used in the luncheon. Butter substitute or dripping is used for browning the grains. Finely chopped green peppers and sections of chives or pieces of onion are fried with the rice.

When nicely browned, the leftover fish with all skin and bones removed, is flaked and added and cooked long enough to heat through thoroughly.

Delicate Pudding

Grate enough dry bread to make a cupful and a half of crumbs. Pare, core and grate three large plump apples and add to the crumbs a cupful of sugar, three beaten eggs, a salt-spoonful of vanilla and a grating of nutmeg. Pour into a buttered pudding dish and bake a delicate brown. Serve hot with hard sauce or cold with whipped or plain cream.

Hashed Brown Apples

Pare, core and dice three big, firm apples. Put a heaping tablespoonful of butter into a frying pan, and when melted put in two thinly sliced onions. Dust with pepper, salt and a little sugar. When the onions are cooked, but not brown, put in the apples, cover and shake two minutes. Remove the cover and stir carefully as they cook through, but not to pieces. When they begin to brown remove to a hot dish.

Apple Pie

Pare six Greening apples, place in a deep baking dish and sprinkle generously with sugar, cinnamon and grated nutmeg. Take about one pint of buttermilk with lumps of butter floating in it and add two lightly beaten eggs. Mix together half a cupful of sugar, two teaspoonfuls of baking soda, a quarter of a teaspoonful of salt and a pint of sifted flour. Combine the liquid with the dry ingredients, make a smooth batter and spread over the apples. Bake in a moderate oven and serve with crushed maple sugar.

HOUSEHOLD HINTS

To clean a galvanized tub or bucket rub with a cloth saturated with turpentine.

To keep sandwiches fresh wrap them in a cloth wrung from hot water and keep in a cool place.

Use soap and wood ashes to brighten pans and kettles that have been used over an open fire.

Try a tiny sprinkle of salt on eggs when they do not beat up light and fluffy.

Old stockings split open and sewed together make excellent dust cloths, as they do not leave any lint.

Jellies and jams may be easily marked by scratching the name in the paraffine after it cools with a hatpin or large pin.

When boiling old potatoes add a little milk to the water. Besides improving the flavor, this prevents them from turning dark in the cooking.

Chopped fat salt pork may be used in pastries.

An Illinois editor was recently held up and robbed of \$2.49. The incident stirred up quite a sensation, but as yet no clue has been found as to where he got the money.

When the rules of the air are put in force we presume it will be strictly understood that the ship that has taken a tumble has the right of way over all others.
