A wedding reception and lunch was held at the home of the bride's parents after the wedding ceremony and the evening stillness was enlivened by a good sized old fashioned chivari bringing recollections of his early marriage. The groom was a widower, his wife having died about four years ago. The bride was brought to the fine farm home owned by the groom and is not a stranger to the workings of the farm having been with the Larson family for a number of years. Many happy felicitations were given the newlyweds. Rev. Silts performed the ceremony and the church was crowded.

A number of the residents of Deer Island resent the statement made last week in regard to the recent moonshine raid that "whenever the officers arrived in the vicinity the telephones were kept busy to notify the operator of the still of their presence." They felt it to be quite a shame on the community, especially since the line which communicates with the interior has been out of commission for several months.

Mr. and Mrs. J. F. Loyd entertained New Year's day with a bountiful dinner. Besides her family at home she had Mr. and Mrs. Judisch, Mr. and Mrs. English, Mrs. Nicholas and L. H. Bevis and Frank Clark, fifteen in all.

ANOTHER INSTANCE OF "MOTOR MADNESS."

While southern Pacific company officials have become accustomed to the recklessness of motorists after receiving many reports of autoists running into the sides of trains, breaking down crossing gates and running down crossing flagmen warning them of approaching trains, etc., they express surprise and wonder at the latest instance of foolhardiness—that of using railroad tracks for a highway.

A few days ago at Barnard, California, two machines occupied by eight people turned off the country road at a Southern Pacific crossing, because of snow, and started down the tracks which had been cleaned by a snow plow, at a point where trains are moving frequently in both directions. One of the machines had stuck in a switch "frog" and the wheels of the other machine had slipped over the ends of the ties on one side when the Southern Pacific company's Shasta Limited came along. That the occupants of the machines were not all seriously injured or killed is considered by the railroad men to be most surprising. As it was, the engineer stopped the train but two car lengths from the first machine.

100 Years Hence

You often hear this said: "Oh, what's the difference? One hundred years from now things will be much the same for all of us."

All right. Admit it. By that time we will all surely be out of the running. But how about ten years from now? Or twenty years from now? Then what? Well, at that time the person who is saving, and carefully deposits and invests his money, will be on "Easy Street," that's all. We can't well look forward a hundred years, but the shorter period demands the attention of all thoughtful people.

AVERAGE FOOD COST IS COMPILED

The Four L Bulletin gives the food cost averages for a family of five (father, mother, boy of 12, girl of 8, and child of 2) based on the amount of food required by a family of this size as determined by the U. S. Bureau of Labor Statisticians. Springfield had the lowest average, \$1.52 per day. Astoria was highest, the average there being \$1.65. Averages of other places in Oregon were: Baker \$1.55; Bend \$1.60; LaGrande \$1.56; Silverton \$1.55; Portland \$1.52; St. Helens \$1.56; Brighton \$1.65. In Washington, Seattle tied with Portland and Spokane beat both, its average being \$1.49. Among the Oregon cities listed, St. Helens ranked fourth. The Washington average was \$1.54 and Oregon \$1.57. The general average was \$1.55.

Worth Considering.

The question is not so much how you contract a cold, but how to get rid of it with the least loss of time and inconvenience. If you will consider the experience of others under similar circumstances, who have been most successful in checking their colds, in their beginning, you will secure a bottle of Chamberlain's Cough Remedy without delay, and use it faithfully. There are many families who have used this preparation successfully for years and hold it in high esteem. It is excellent.

Some people apparently had rather have credit at the filling station than at the grocery store.
