Two Men in Trouble

A man had an automobile and he thought it wise to keep just a little gas in his tank. "Why buy more than I must use up?" he said.

One day he took an unexpected trip into the country and his gas gave out. He had to call for help.

Another man had a bank account and he thought it wise to keep only a little money there ready for his checks—"Why should I keep my money lying idle?" he said.

A special opportunity came to this man but he did not have the money needed to swing the deal. He asked for a loan but the opportunity was gone before he was ready to act.

MORAL—Keep plenty of gas in your car and a fairly good bank account to solve your problems as they come. Think it over.
