The Pneumonia Month.
March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ laden mucus and not only cures a cold but prevents its resulting in pneumonia. It is pleasant to take. Children take it willingly.
Didn't Need the Rest.
A young man living over in Warren hired out to work in the fields. The boss went out in the afternoon of the first day to see how the boy was making it. He found him lying in the shade of a tree, smoking a cigarette. "Tired?" asked the boss. "Nope!" answered the young man. "Hain't done nothin' to make me tired. Just a layin' here writin' for quittin' time soss I c'n come to supper." For the past two years a great many young men and old men have tried to earn a living that sam' way.
